ADVANCE IS BEGUN

ROBERTS BEGINS PURSUIT OF THE BOERS.

BURGHERS ARE IN RETREAT

BRITISH FOLLOWING AND FIGHTING.

THE TRANSVAAL IS INVADED

A FLYING COLUMN NOW ON REPUBLICAN SOIL.

London, March 7.—Field Marshal Roberts has telegraphed as follows:

"Osfontein, March 7.—4:30 p. m.—Our operations today promise to be a great success. The enemy occupied a position four miles north and eleven miles south of the Modder river.

"I placed General Colville's division on the north bank and General Kelly-Kenny's and Tucker's division, with cavalry, on the south bank.

"The cavalry division succeeded in turning the enemy's left flank, opening a road for the sixth division, which is advancing without having been obliged to fire a shot up to the present time. The enemy are in full retreat towards the north and east. They are being closely followed by cavalry, horse artillery and mounted infantry, while Tucker's seventh division, Colville's ninth division and the guards' brigade, under Pole-Carew, are making their way across the river at Poplar's drift, where I propose to place my headquarters this evening.

"Our casualties will, I trust, be few, as the enemy were quite unprepared for being attacked by the flank and having their communications with Bloemfontein threatened."

TRANSVAAL INVADED.

London, March 7.—4:16 p. m.—A special dispatch from Durban says a flying column of British troops from Zululand has entered the Transvaal and has been daily skirmishing with small parties of Boers.

The force consists of mounted infantry, Natal Scots and artillery, all commanded by Major Prendergast. The column first crossed the border on February 28. It now occupies an entrenched position on Catasa Hill, nine miles within the Transvaal.

THE BOERS BLUNDERED.

Boer Camp, Biggarsberg, Saturday, March 3.—The federals have fallen back on the Biggarsberg chain that crosses Natal south of Dundee.

The retreat from Ladysmith was due to the mistake of a certain commandant in ordering his men to retire from the key of the position without any reason for the move.

On the receipt of the bad news from the Modder river Wednesday it was resolved to send the wagons back to Biggarsberg, and soon long strings of ox wagons lined the roads. Over a thousand wagons took the westerly route to the longer southwest of Ladysmith. Another convoy was sent to the foot of the Drakensberg. A large number of tents captured from the British at Dundee and also the ammunition were abandoned. The chief difficulty was in dismounting "Long Tom."

REVISED CASUALTY LIST.

London, March 7.—Another list of the casualties sustained by General Buller's forces from February 14 to February 27 shows: Killed, 123; wounded, 573; missing, 54.

Of these the losses of the Inniskillings were as follows: Killed, 54; wounded, 162; missing, 22. Dublin fusiliers, killed, 15; wounded, 97; missing, 13. Connaught rangers, killed, 19, wounded, 105; missing, 8. Royal Irish fusiliers, killed, 11; wounded, 63; missing, 2. Scots fusiliers, killed, 18; wounded, 168; missing, none.

With the list of casualties issued Monday this makes the total cost to the rank and file in the final relief of Ladysmith 1,859 men.

BULLER'S CONGRATULATIONS.

Durbin, March 6.—General Buller, in a general order regarding the relief of Ladysmith, says:

"Two forces during the last few months have striven with conspicuous gallantry and splendid determination to maintain the honor of the queen and the country.

"The Ladysmith garrison for four months held that position against every attack with complete success and endured many privations with admirable fortitude. The relieving force had to force its way through an unknown country, across unfordable rivers and on almost inaccessible heights face a fully prepared, well armed and tenacious enemy.

"By the exhibition of the truest courage, courage that burns steadily, besides flashing brilliantly, accomplished its object and added a glorious page to the history of the army.

"Ladysmith was successfully held and relieved and the sailors and soldiers, colonial and home born, who had done this, were united by one desire and inspired by one patriotism."

The order congratulates both forces on the martial qualities displayed and thanked them for their determined effort.

General Buller also sympathizes with the relatives and friends of the gallant comrades who have fallen.

NO NEWS FROM ROBERTS.

London, March 7.—For lack of all news from Field Marshal Lord Roberts attention turns to Natal. It is reported that General Buller has pushed forward a force along the Harrismith railroad line toward Van Reenan's pass, using the railroad freely for communications.

It appears that the Boers intend to take up a strong position in the Biggarsberg range and contest the Glencoe passes, although it hardly seems likely that General Buller will attempt to force these for the present. His plans, however, are kept almost as secret as those of Lord Roberts.

While waiting for the important developments which are daily expected to occur in the Free State, rumors of peace recur. The second edition of the Times today contains a despatch from Cape Town, which says there is a crying need for an explicit statement by the British ministry that nothing short of annexation is intended in order to "damp the mischievous agitation that is going on under the pretext of a demand for peace."

NO BOERS NEAR LADYSMITH.

Ladysmith, March 6.—There are no Boers within twenty miles of here. Plenty of supplies are available and the troops are quickly recovering their strength. Many of the volunteers have been granted furloughs.

HARRISON FOR THE BOERS

THE EX-PRESIDENT EXPRESSES HIS SYMPATHY.

Will Not Talk for Publication, but Privately Expresses His Sympathies.

New York March 7.—A special to the World from Auburn, Ind., says:

"Ex-President Harrison has been interviewed by many public men of Indiana in regard to the Boer-British war and he minces no words in expressing his sympathy for the Boers, although he persistently refuses to be publicly quoted, lest his words embarrass the McKinley administration.

"General Harrison contends there is no occasion for gratitude on the part of this government toward the British. He thinks the British were guilty of inhuman practices during the revolutionary war and that their attack on this nation in 1812 had no justification from any international standpoint, while their conduct toward the union during the civil war was also reprehensible.

"He sees no occasion for enthusiasm over the friendship of the English during the war with Spain, as it was a war against cruelty and clearly for humanity. There was no reason why the British or any other enlightened nation should not have been with America on this proposition.

"If the British were suppressing cruelty in South Africa or remedying conditions that interfered with human government, the United States would be justified in lending its sympathy. On the contrary, General Harrison thinks here is a republic fighting for its home and its own government, a cause as just as the Americans had in their great war of the eighteenth century."

In Justice Bullerman's court Mahala McMannigal has filed an affidavit against Theodore Hoffer, alleging provoke. The case will be heard Thursday afternoon by Justice Bullerman.

P. L. Robison, of Bluffton, is a guest at the Randall.

OF FAR-OFF ISLES

THE PHILIPPINE QUESTION IN THE SENATE.

SENATOR LODGE IS HEARD

URGES THAT THE FACTS BE DEALT WITH.

MASON'S BOER RESOLUTION

ILLINOIS SENATOR WANTS IT BROUGHT FORTH.

Washington, March 7.—Soon after the senate convened today Mr. Sullivan, of Mississippi, offered a resolution that the Philippine Islands are the rightful property, honorably acquired, of the United States; and that "while the misguided Filipinos continue the present war, brought on by them, against the rightful authority of the United States, so long as a single gun in their hands is trained upon our flag, no expression of intention as to the future course of the United States with respect to them should be made by the senate."

Mr. Sullivan asked that the resolution lie on the table until he should call it up.

MASON'S BOER RESOLUTION.

Mr. Mason, of Illinois, then gave notice that tomorrow, after the morning hour, he would enter a motion that the committee on foreign relations be discharged from further consideration of his resolution expressive of the senate's sympathy for the Boers in their struggle with Great Britain. He had, he said, introduced the resolution on December 4, and it had been in the hands of the committee ever since.

"I have no intention of violating the rules of the senate," said Mr. Mason, "but it is clearly the intention of the committee on foreign relations to take no action in regard to the resolution and I want it brought into the senate and placed on the calender. The committee could give us a report if it would. If a majority of the committee is opposed to the resolution let them report it adversely. That would be making some progress. I am satisfied that 95 per cent of the people of the country are in sympathy with the Boers in their war with Great Britain and I am just as certain that a majority of this body would favor the resolution I introduced. It is the merest child's play for us to sit here and not be able to get a vote upon it."

In accordance with a notice previously given Mr. Lodge, of Massachusetts, then addressed the senate on the Philippine question.

As chairman of the Philippine committee and as a member of the committee on foreign relations, Mr. Lodge was expected to make a notable utterance on the question. He was given, therefore, an attentive hearing by both his colleagues on the floor of the senate and by a large concourse of auditors in the galleries.

Mr. Lodge's speech was based upon the bill introduced by Mr. Spooner, of Wisconsin, vesting in the president authority to govern the Philippines until congress would otherwise provide by legislation.

SENATOR LODGE'S SPEECH.

Senator Lodge declared it would be a great mistake at this time to undertake any far-reaching legislation dealing with the Philippines. The president, he said, should be authorized to control the islands and our position should be clearly defined.

He deprecated making a party issue of the Philippines. He had been unable to discover what policy opponents had proposed, saying:

"The resolutions offered by senators on the other side present no policy, but invite us to make promises. Promises are neither action nor policy, and, in the form of legislation, are a grave mistake. Those which involve us in matter of independence have the additional disadvantage of being the one sure means of keeping alive war and disorder in the islands. If we must abandon the Philippines, let us abandon them frankly. If we mean to turn them over to domestic anarchy or foreign control, let us do it squarely. If we are to retain them, let us deal manfully with the problems as they arrise.

"The policy we offer, on the other hand, is simple and straightforward. We believe in the frank acceptance of existing facts, and in dealing with them as they are and not on a theory of what they might or ought to be.

"We accept the fact that the Philippine islands are ours today and that we are responsible for them before the world. The next fact is that there is a war in those islands, which, with its chief in hiding, and no semblance of a government, has now degenerated into mere guerilla fighting and brigandage. Our immediate duty, therefore, is to suppress this disorder, put an end to fighting, and restore peace and order. That is what we are doing. That is all we are called upon to do in order to meet the demands of the living present. Beyond this we ought not to go by a legislative act, except to make such provision that there may be no delay in re-establishing civil government when the war ends."

Mr. Lodge quoted official documents and correspondence in support of his contention that Dewey entered into no political entanglements with Aguinaldo. He denounced as absolutely fictitious all statements that Admiral Dewey saluted the Filipino flag or received Aguinaldo with military honors, or in any way recognized the so-called Filipino government.

Mr. Lodge presented an extract from a letter written by Captain Coghlan, then of the Raleigh, detailing precisely what occurred at Subig Bay.

Senator Lodge upheld the president's policy, saying it was "at once courageous, wise and patriotic." He asserted that the islands under American administration would become self-supporting and drew a picture of the commercial possibilities of the Philippines and of the advantage they would be to the United States, not only on account of their fertility and richness of resource, but because they are the gateway for this country to the trade of the Orient.

IN THE HOUSE.

Washington, March 7.—The house was in session but twenty-five minutes today, adjourning out of respect to the memory of the late Representative Harmer, of Pennsylvania, "the father of the house," who died yesterday. The usual committee was appointed to attend the funeral The vote on the Aldrich-Robbins contested election case, which was to have been taken today, was postponed until tomorrow. The conference report upon the financial bill, which was agreed to by the senate yesterday, was presented to the house, but no time was fixed for calling it up.

PENSION FOR QUEEN LIL.

Washington, March 7.—The senate committee on foreign relations today authorized the reporting of an amendment to the diplomatic appropriation bill appropriating $20,000 to be paid to ex-Queen Lilioukalani, and providing for an annual donation of $10,000 to her as long as she may live.

CONSTITUTION IS THERE.

Washington, March 7.—Senator Allen today introduced an amendment to the Porto Rican appropriation, declarang that the constitution was by force of the Paris treaty extended over the island of Porto Rico and its inhabitants.

MEDALS FOR SAILORS.

Washington, March 7—Senator Mason today introduced a joint resolution authorizing the striking of medals to be distributed among the officers and men of the north Atlantic squadron who participated in the naval engagements off the Cuban coast during the Spanish war. The resolution proposes an appropriation of $25,000.

GOLD BILL PASSES SENATE.

Washington, March 7.—Not probably in the history of the senate was there ever shown so little real interest in the final vote on a great measure as was manifested yesterday afternoon in the vote on the conference report on the financial bill. The report was before the senate for nearly two weeks, yet only four speeches were delivered upon it, including Mr. Aldrich's explanation of the changes made in the senate bill by the conferees. Yesterday's discussion ceased on the bill fifteen minutes before the time fixed for the vote and the senate actually began the consideration of minor bills on the calendar to consume time. The conference report was agreed to by a vote of 44 to 26, the report having a majority of 18.

The evangelistic meetings which are being held at Grace Reformed church are well attended and good results have been achieved. There will be a meeting on Thursday afternoon at 2:30 and the subject of the discourse will be "Christian Life and How to Live It."

WITH OPEN LAMP

A MINER WALKED INTO THE DEADLY GAS.

CAUSE OF THE MINE DISASTER

MORE THAN TWO SCORE KNOWN VICTIMS.

ALL YET IN MINE ARE DEAD

MEN SAY THE DEAD EXCEED FIFTY.

Hinton, W. Va., March 7.—It is practically a certainty that forty-two lives were lost in yesterday's explosion at the Red Ash mines. The cause of the explosion is unknown, but is supposed to have been caused by a miner entering an unused room in the mines with an open lamp. There were forty-two men in the mine at the time of the explosion and if it had occurred twenty minutes later the less of life would have reached 150 or more. The names of those in the mines at the time of the explosion as far as known are:

B. B. Long, Sam Sheff, John Clair, Andy Pritt, Quit Stewart, Edward Hobbs, Robert Jones, Granville Holmes, Sam Shew, Junius Sanders, Bill Sledge, Vale Edgars, John Stone, Ed Harper, William Holmes, Ed Haverich, William Haverich, Alfred Collins, Tob Collins, Charles Fouts, N. C. Ramsey, James Washington, Newville Douse, John Douse, Berry Tucker, Rolston Holmes, Charles Downey, Edward Downey, Ernest Long, Thomas Long, Carl Downey, Date Long.

So far twenty-nine dead bodies have been recovered, which the following have been identified:

B. B. Long, John Day, Joe Elliott, Mat Quarles, Sam Jackson, James Hackney, Boss Driver and William Day.

The others who have been taken out could not be identified. The work of rescue is being pushed as rapidly as possible, but the after damp being very strong, men can work but a few minutes at a time.

It is thought all the bodies will be recovered by tonight.

It is generally believed that the number of dead in the mine will reach fifty or more. The miners claim that the mine superintendent's estimate is too low and that there were more than forty-one lives lost.

There is no hope of any of the victims being rescued alive. It is fully one-half mile from the mine entrance to where the men are. The bodies of those taken out are badly burned.

CHICAGO BENCH SHOW.

Chicago, March 7.—The tenth annual bench show of the Mascoutah Kennel club opened at the First Regiment armory today. From the number and quality of the entries the show is expected to be the most successful ever held here. Nearly 1,200 dogs are on exhibition, including the principal entries from the recent New York bench show and scores of other prize winners from all over the country. The New York exhibit alone includes 300 dogs, among them being the kennels owned by Frank Gould and G. W. Carmuchan. Six toy Pomeranians, owned by Mrs. Marion Smith, of Philadelphia; some English bull dogs, owned by Richard Croker, jr.; the Lemington kennels, of Pittsburg, and some of the finest dogs of Europe are also benched. The exhibit will continue for four days. The judges are Theodore Markles, of Manchester, Eng.; Dudley E. Waters, of Grand Rapids, Mich.; Dr. H. J. Olive, of New York; Arthur Trombling, of Chicago. Judging began today.

INSANE ASYLUM BURNED.

St. Peter, Minn., March 7.—The state insane asylum was badly burned early today, but fortunately no lives were lost, though thirty-five employes narrowly escaped in their night clothes. The loss is $40,000, partially insured.

ULTIMATUM PRESENTED.

St. Louis, March 7.—A committee of five, composed of members of the Amalgamated Association of Street Railway Employes, today called on General Manager Coleman, of the St. Louis Transit company, representing all but one of the street car lines in St. Louis, and presented the resolutions embodying the demands adopted at last night's meeting of street car men. Manager Coleman received the resolutions as coming from employes, and not as an organization, and promised to give them his consideration. It is stated that if the demands are not acceded to the 3,000 employes of the company will strike within forty-eight hours.

WALES' FIRST LEVEE.

London, March 7.—The first levee of the season was held by the Prince of Wales today at St. James palace. There was a fairly large attendance, though there was not the usual preponderance of uniforms, on account of the war. The entire staff of the United States embassy attended. United States Ambassador Choate presented Col. Carey Snager, U. S. V., and J. Coleman Drayton, Hugh Griffin and R. S. Hungerford, of New York.

GIVE THE SPEAKER A TITLE

GENERAL HENDERSON IS NOW "DUKE OF CONGRESS."

Elevated to the Nobility in the Domain of King Rex, of the Mardi Gras.

Washington, March 7.—Speaker Henderson was today created the "Duke of Congress" by a delegation from New Orleans, representing King Rex, of the Mardi Gras, and was presented with a beautiful jewel of diamonds and pearls, emblematic of his office. The ceremony occurred in the speaker's private office prior to the meeting of the house. Representatives Berry, of Kentucky, and Davey, of Louisiana, presented a delegation consisting of Messrs. Woodward, Saunders and Bryan.

Mr. Berry made a speech saying the party was here at the bidding of King Rex to attach the speaker to the royal household. Colonel Berry said the king sent word that he had just arrived through the passes of the Mississippi on a vessel drawing 26 feet and he urged the speaker to look with favor on a 35 foot channel in the passes, and also not have more than one wife.

The speaker responded to these facetious references to Mississippi river legislation and to the Roberts case, saying he would give his best efforts toward securing sufficient depth for the river and that he would encourage monogamy in the interest of morality.

The delegation then pinned on the speaker's breast the royal jewel which is of genuine worth and beauty.

DAMAGE BY FLOODS.

Cleveland, Ohio, March 7.—Telegrams from various points in northern Ohio today indicate that great damage is being done by floods.

At Fremont the Sandusky river has overflowed its banks and submerged the lower part of the town. Cellars of business houses are filled with water and many factories have been compelled to close down. At Warren, the Mahoning river has reached the danger point and the lower part of the town is flooded. Much damage has resulted at Massillon owing to the Tuscarawas river overflowing its banks. The Grand river at Painesville is out of its banks and a serious flood is feared. The bridge of the Sandusky, Milan and Norwalk electric road at Milan has been washed away and much other damage done. Rocky river is on a rampage at Berea, where 200 acres are submerged and the water is still rising. The stone quarries of the Cleveland Stone company and the village pumping station are covered with water, entailing heavy losses.

TO REPORT BILL FAVORABLY.

Washington, March 7.—The senate committee on appropriations today authorized a favorable report on the house bill providing that the revenues collected from Puerto Rico be expended in that island. The bill was amended so as to include only the money collected to January 1, 1900. The clause of the house bill authorizing the refunding of future revenue collections was stricken out.

DISCUSSED THE TREATY.

Washington, March 7.—The senate committee on foreign relations today considered the Hay-Pauncefote Nicaraguan canal treaty, but reached no conclusion. The committee adjourned to meet Friday, when the treaty will again be taken up. The postponement was due to the desire to have the sub-committee investigate some facts bearing upon the treaty which have not been taken cognizance of.

DAMAGE IS HEAVY

FOSTER WAIST FACTORY IS BADLY FLOODED.

SPRINKLER BROKE IN NIGHT

IMMENSE STOCK OF FABRICS WATERSOAKED.

EXTENT OF LOSS NOT KNOWN

TWO FLOORS FLOODED WITH ESCAPING WATER.

Some time late Tuesday evening or early this morning, a sprinkler burst in the Foster shirt waist factory, on North Lafayette street, flooding two floors of the building and damaging stock valued at $40,000. When the factory was opened this morning the interior looked like a skating rink which had been freshly flooded, and volumes of water were pouring from the pipe at the sprinkler joint. The water was immediately turned off and the employes at once set to work to rescue as much of the stock as possible The water pipe is located on the second floor of the building, where the machines and a large part of the finished stock are kept. The stock on this floor, though badly soaked, was not as badly damaged as the stock in the basement. The water soaked through the floor and formed miniature Niagara Falls down the stairways, and in places had accumulated to a depth of several inches. In the basement is stored the cloth used in the manufacture of the garments, some of it being in large packing cases. The boxes were no protection, however, and the goods they contained were as wet as the material on the shelves. Almost the entire stock was soaked, a small portion in the west end of the room escaping damage. On the second floor, where the finished garments are stored, the damage is not so great, only the goods on the floor and in the immediate vicinity of the pipe being soaked.

There is no way to estimate the damage at this time, and under the present conditions, but there is no doubt that the loss will be away up in the thousands. The loss is not covered by insurance. Mr. Foster stated that he would be unable to estimate the damage until the stock is sold out in the spring.

The water had evidently been running for a considerable length of time on account of the fact that in the basement some of the cloth is piled to a height of several feet, and it has been soaked from top to bottom. The nozzle of the sprinkler is soldered, and it is thought that the soldering was not sufficiently strong to withstand the pressure of water.

Mr. Foster says that this is the third time he has had trouble with sprinkling devices, and that he had about decided to do away with them. The accident did not necessitate a suspension of work in any of the departments.

RESCUED AT SEA.

Wilmington, N. C., March 7.—The Norwegian barque Passal, Captain Aronson, which arrived at this port this morning had on board Capt. Geo. L. Welt, and the entire crew of eight men from the four-masted schooner Isiah Hart, of Boston, from Baltimore to Galveston, which encountered a gale off Hatteras Tuesday, the 27th, and went down Friday morning following, about 250 miles south west of Frying Pan Lightship. The schooner had a cargo of 1,320 tons of coal and sunk how foremost as the crew drifted out in a yawl boat. They were picked up five hours later by the bark.

STRIKE FEVER SPREADS.

Chicago, March 7.—Two hundred and thirty men were today added to the thousands of workmen out on strike in this city, the buffers, polishers and brass workers employed by Turner Bros. and the L. Wolff Manufacturing company walking out in an effort to enforce their demands for recognition of their union and a nine-hour working day. The union is affiliated with the Material Trades council, but labor leaders deny that the strike is in any way a sympathetic one and also state that no sympathetic strikes will be ordered before the end of the week, if at all. The shut-down of the building material manufacturers, which was agreed upon yesterday, will not take place until Saturday.

PHILADELPHIA VISITED BY A DISASTROUS BLAZE.

MILLINERY STORE BURNED

FLAMES SPREAD TO A LARGE DRY GOODS HOUSE.

LOSS WILL EXCEED $700,000

TWO THOUSAND PERSONS ARE DEPRIVED OF WORK.

Philadelphia, March 7.—A fire, entailing an estimated loss of over $700,000, occurred early today in the retail dry goods district. The conflagration originated in the engine room of Shoneman Bros.' dry goods and millinery store at Eighth and Arch streets. The building was T-shaped, fronting on three streets, Eighth, Arch and Cherry. The engine room was in the basement at the centre of the structure.

It is said that while the fire was being drawn from the furnaces sparks communicated with some waste paper, and the little blaze spread with astonishing rapidity to the upper floors.

This was at 7:15 o'clock, and the employes had not yet arrived. A general alarm was sounded, but all efforts to save the building were fruitless, and it was leveled. The loss is placed at $300,000.

Marks Bros.' dry goods store, adjoining, was partly damaged by smoke and water, and their store house was completely gutted, entailing an estimated loss of $300,000. The Shoneman building was four stories and Marks five stories in height.

The flames spread to the six story building on Cherry street, occupied by Meyerhoff Bros. manufacturers of women's and children's clothing, and the Philadelphia Electrical Equipment company. Nothing was left of this place but the walls. The loss is placed at $200,000.

Several smaller buildings were more or less seriously damaged.

About 1,500 persons, men, women and children, were thrown out of employment by the fire.

CONFERS WITH CARNEGIE.

New York, March 7.—Charles M. Schwab, president of the Carnegie Steel company, left this city for Pittsburg last night. He came here to consult Andrew Carnegie about the litigation in which the Carnegie company and Mr. Carnegie are involved as a result of the suits brought by H. C. Frick and others. Mr. Schwab and Mr. Carnegie were in consultation the greater part of yesterday. Neither would talk about the conference. The time allowed for Mr. Carnegie and the Carnegie company to file an answer in the suits in question will soon expire and it is believed the conference was in relation to the wording and general tone of this answer. While neither Mr. Carnegie nor Mr. Schwab would talk about the matter, it was positively rumored that the trouble between Mr. Frick and his associates and Mr. Carnegie and the Carnegie Steel company would be compromised and the suits discontinued.

MR. PHELPS' CONDITION.

New Haven, Conn., March 7.—Dr. Charles C. Foote, the physician in attendance upon E. J. Phelps, ex-minister to England, this afternoon gave out the following statement:

"The condition of the patient is today the same as it has been for several days, plus a gradual failing of strength. Thereare no more complications than one would expect. Professor Phelps has been blessed with a very tsrong constitution, but he is now so well along in years that he has no reserve strength upon which to draw. The disease has taken so strong a hold upon him that he is now suffering from a slow, progressive decline, against which I do not know how long he will be able to hold out."

DEMISE OF A. C. HARMER.

Philadelphia, March 7.—Congressman Alfred C. Harmer, representative from the Fifth district of this state, died at his home in this city last night, aged 75 years. Mr. Harmer was the oldest member of the lower branch of the national legislative body in point of continuous service. While some other members entry antedated Mr. Harmer's, none had served so long without a break. Mr. Harmer enjoyed the unique and well earned title of "father of the house" and the usual honor of administering the oath of office to Speaker Henderson on December 4, 1899. Mr. Harmer was first elected in 1871 to the Forty-second congress; was out two terms, 1875 and 1877; was re-elected to the Forty-fifth congress, and was up to the time of his death a member of the national house of representatives continually for twenty-four years. He had been ill since last November, when he was stricken with a severe attack of kidney trouble. He recovered sufficiently to attend the opening of congress in December, but later was again confined to his bed. A few days ago he suffered a relapse and steadily failed until last evening.

PAPER TO PREACH SERMONS.

Topeka, Kan., March 7.—Topeka is the battle ground where next week will be fought out the proposition whether the clergy is justified in leaving the pulpit to set up a Christian standard for newspapers to follow. Second only to the Sheldon Christian newspaper experiment is the novel plan of the Topeka State Journal in combating the "what would Jesus do" idea. E. W. Howe, a strong writer, is preparing lay sermons to be published during the Sheldon week. He will take strong grounds favoring the idea that the modern newspapers are the greatest moral and educational agencies in the world. He will quote prominent clergy to show that interest in the church is lagging and that preachers have all and more than they can do to reform and put new life into it. Howe will point out these facts in a vigorous way and show Rev. Mr. Sheldon that his services are needed in the vineyard and not at the editor's desk.

COLLEGE YEAR IS CLOSING

THE CLASS OF 1900 WILL NOT BE A LARGE ONE.

Fort Wayne College of Medicine Prepares for Final Examinations and Commencement.

The school year of the Fort Wayne College of Medicine is drawing to a close and students at that institution on West Superior street are perparing for the final examinations, which are but two weeks away. The lectures close March 17, and the annual final examinations begin two days later.

The commencement exercises will be held at the Masonic Temple on Tuesday evening, March 27. Dr. W. H. Meyers will deliver the address on behalf of the faculty, and Rev. J. S. Ainslie will speak for the board of trustees. The exercises will be followed by a banquet at the New Aveline hotel.

The class of 1900 will not be a large one. The recent change from a three to a four-years' course and the additional work required of students will keep the graduating classes in small numbers for several years, though the attendance at the college is good. The Fort Wayne college is said to be doing more thorough and better work at this time than ever before in its history.

STANLEY SETS END FOR WAR.

Paris, March 7.—Le Journal prints an interview with Sir Henry M. Stanley, in which he expresses an opinion the war in South Africa will end about July 1.

"France is in the wrong," he said, "in regarding this war as unjust. She does not know the facts of the case. The Transvaal, as was seen long ago from her preparations, was determined to fight. President Kruger wished to imitate George Washington, but he has not the necessary faculties for sustaining the role."

Regarding Anglo-French relations and the rumors of possible war between the two powers Sir Henry said: "France for many reasons is an indispensable element in Europe. Her force acts as a counterpoise to other forces. British public opinion would not follow a politician who premeditated a war against France and unless England were attacked openly a conflict would be well nigh impossible."

TOWN WITHOUT DEBT OR TAX.

New Haven, Conn., March 7.—The historic shore town of Guilford has broken the record for New England thrift and economy. For political economists it will henceforth be held up as a model of prudent government. The town has just voted to lay no tax whatever for the coming year. It has all the money on hand that it needs, will have more from the sale of franchises before the year expires and it has no debt. When the annual town meeting was held yesterday there was passed an unanimous vote not to levy a town tax, because there was no need of it, and its collection and investment would be a bother. For four years a tax of only ten mills has been laid. Guilford is the first town in New England to go a year without a tax levy since the landing of the Pilgrims.

THE BEAR WAITS.

RUSSIA NOT YET READY FOR WAR WITH JAPAN.

THE FUTURE HOLDS TROUBLE

CZAR WANTS TRANS-SIBERIAN RAILROAD COMPLETED.

THEN WILL GRAB ALL COREA

PROCESS OF COERCION NOW IN PROGRESS.

New York, March 7.—A dispatch to the Herald from Yokohama says:

No one of the legation in Tokio nor any of the Japanese officials will acknowledge that war with Russia is imminent. It is well known in diplomatic circles that Japan and Russia are working secretly to obtain concessions in Coren against other nations, but this does not mean that a clash between Russia and Japan is not coming in the near future. Japan is the only serious obstacle in the way of the Russian eastern policy.

Japan must have Coren, which already is flooded with Japanese coolies who are really soldiers. Russian transports pass through Nagasaki constantly, loaded with troops for Port Arthur.

The Japanese common people have a great hatred for Russia and would welcome war without counting the cost, but they have little power. Japan has no money for war and Russia will yield to Japan so long as the trans-Siberian railroad is incomplete.

An American engineer who has gone over the road says that it cannot be used effectively for nine months.

Rumors of an impending war originated in Shanghai, not in Japan and were based on generalizations, not on facts.

Russia is now changing her representatives throughout Japan and would not do so if she expected an imminent outbreak. As during the last three years a crisis resulting in war might arise at any moment, but for the present it is not at hand, and, in my opinion, Russia can prevent it until she is ready.

WILL COERCE JAPAN.

New York, March 7.—A dispatch to the Journal and Advertiser from Odessa says:

Among the officers of the volunteer fleet of cruisers who recently returned from the far east there is a strong belief that the enormous garrisons being formed at Port Arthur, Dalni and Vladivostock will be utilized soon as a coercive lever for compelling the Japanese to abandon their pretentions and acquisitions in Corea. The commander of one of the cruisers expresses his conviction that before the end of this year Russian influence in the far eastern peninsula will have become so absolutely dominant that the Japanese will feel morally constrained to give up the struggle and retire from the many important enterprises they are now prosecuting in Corea, and that will open the way for the gradual assumption of a Russian protectorate.

HELD FOR GOEBEL'S MURDER.

Frankfort, Ky., March 7.—Harlan Whittaker, of Butler county, charged with murder in connection with the assassination of William Goebel, was held over, without bail, at the examining trial before County Judge Moore yesterday afternoon, and Silas Jones, of Whitley county, was held over on $500 bond to await the action of the Franklin county grand jury, which meets the first Monday in April. The witnesses examined were: John E. Miles, who made the arrest of Whittaker; Policeman Thompson, who told of taking Whittaker to jail; Constable Harrod, who took Whittaker to Louisville, and others. Harrod said Whittaker told him on the trip that he had no money but that his wife had $3,000 and asked him to open the handcuffs. He offered Harrod money. He said if he would protect him from mob violence that he would tell him all he knew; that he did not kill Goebel. Charles Howard, a Franklin county farmer, testified that three days before the shooting Whittaker had asked him to point out Goebel to him in the senate chamber. Goebel was not there that day. Representative Albert Charlton and Eph Lillard, jr., testified to being with Miles when Whittaker was captured. Whittaker was not placed on the stand. Nearly all the witnesses testified to hearing Whittaker say he was here to guard Acting Governor Taylor. The defense declined to introduce evidence.

RICH BANKER SETTLED.

Delphos, Ohio, March 7.—Mrs. Lottie White, of Delphos, sued Justin Brewer, of Ada, for $20,000 for alleged breach of promise to marry her, a little over a year ago, and the hearing of the case occupied a month's time. The jury disagreed. Brewer was a widower at the time the case was commenced, but has since married a young lady in Ada. He is a wealthy man, and is president of one of the banks at Ada. The case was to come up again next week for hearing, but Brewer, it is declared, offered to compromise by giving Mrs. White $10,000. This she accepted and the case was dismissed.

THE SAME OLD VIEWS.

Washington, D. C., March 7.—The Post today says:

President McKinley, in conversation with callers at the white house yesterday, reiterated his belief that the people of Porto Rico are entitled to free trade with the United States. He made it clear that his views had undergone no change since he wrote his message to congress. At the same time he was unable to subscribe to the theory that the constitution followed the flag; that the Porto Ricans must have free trade as a necessary legal right. When he found that the house deemed it the part of wisdom, the president explained, to impose a small tariff upon condition that the revenues so collected all be returned to the island, he had been constrained to yield to the judgment of the house. The tariff under such conditions, would be no hardship to the Porto Ricans. Moreover, he believed it advisable, at the last moment, to secure a decision from the supreme court on the constitutional questions involved. Therefore, he had given his consent to the nominal tariff and agreed to sign such a bill.

WHY PAUNCEFOTE STAYS.

London, March 7.—The St. James Gazette this afternoon, while declaring that the extension of Lord Pauncefote's stay at Washington as embassador of Great Britain is due to the coming presidential election and "all that goes with this recurring comotion," says: "To Americans Lord Pauncefote's stay will be acceptable because he has achieved the feat of making himself popular, with a success for which there is no precedent since the first British minister was accredited to the United States a century and a quarter ago. To us his continued tenure of office is acceptable because he has pleased the Americans and as it is highly desirable from a business point of view as well as grateful to our feeling that they should continue to be pleased."

ROOT REACHES HAVANA.

Havana, March 7.—Secretary Root arrived here at 8 o'clock this morning on board the United States transport Sedgewick. He was received with a salute from Cabanas fortress. General Ludlow was also on board the Sedgewick. Governor General Wood and all the division staff and the department of Havana staff were conveyed to the transport by the quartermaster's tug and escorted the party ashore. The prominent Cubans who visited the Sedgewick were the chief justice, the secretaries, the mayor, the civil governor and the chief of police.

SAVED HER FATHER.

St. Louis, March 6.—Little Elsie Tiltman, 7 years old, was fatally burned at her home in trying to save her father after a coal oil explosion. He escaped only slightly injured, while her burns resulted in her death a few hours later at the City hospital. The family live at 4201 Liston street. When the father, Philip, tried to kindle the fire for breakfast by pouring oil on the wood the can exploded, setting fire to his clothing and drenching the garments of the child with oil. Tiltman ran to the yard ablaze. His daughter, Elsie, followed and tore his clothes from him. In doing so her own garments caught, and she was soon enveloped in fire. Tiltman, saved by his child, then secured a blanket and wrapped her in it, but she had already been fatally burned and his assistance was of no avail.

STRIKE GROWS LARGE.

Pittsburg, March 6.—A strike of about thirty electric cranemen at the Allegheny works of the Pressed Steel Car company has resulted in the refusal of the employes in the car department to continue work. Over 1,000 men are said to be involved now, but those who quit work today have no complaint to make as to wages. They say the men employed to take the places of the striking cranemen are inexperienced and so make the work of the other workmen extra-hazardous. The men out include the bolsters, punchers, riveters and fitters up. The cranemen are striking for an advance of 25 cents a day. A. G. Glouver, representing the company, denies there is any incompetency on the part of any of the cranemen employed and says only a few men are out.

The legislature of Mississippi has passed a bill forbidding the sale of cocaine except on the prescription of a physician.

ARTICLES OF INCORPORATION

OF THE NEW "WAYNE CLUB" HAVE BEEN FILED.

Formed for Social, Scientific and Literary Purposes—Under New Manager.

Articles of incorporation of the new "Wayne club" were filed Thursday afternoon with the county recorder. The articles say that the club is formed for social, scientific and literary purposes, and for such other matters as fall within the purview of social clubs. The club is to have five directors and the gentlemen chosen to manage the club for the first year are William Meyer, jr., Hon. R. C. Bell, Angus McPherson, A. B. Jackson and Sam Wolf.

COURT NEWS.

John Morris, jr., R. S. Taylor and W. G. Colerick are in Indianapolis today arguing before the appelate court the case of the Fort Wayne Power company against the county commissioners. Judge Colerick represents the commissioners because Barrett & Morris, county attorneys, were also attorneys for the Water Power company.

Judge O'Rourke and a struck jury are hearing the evidence in the damage suit commenced by Reuben S. Longley vs. the Wabash railway. Longley was injured in the big crowd which was at the depot to greet President McKinley last summer. Ryan & Ryan are attorneys for Mr. Longley and Judge Zollars and Hammond & Simms, of Lafayette, for the railway company.

Charles Nestel (Commodore Foote) was still being examined in the Nestel will case today. The defense will not have much evidence to offer after Mr. Nestel leaves the witness stand.

In 'Squire Tancey's court Oscar Jump has filed an affidavit against Andrew Ramsem, his son-in-law, charging him with assault and battery on plaintiff. Another affidavit charges Jump with provoking Mrs. Jump. The parties reside in the country.

INDICTMENTS RETURNED.

New York, March 6.—The special grand jury convoked to inquire into Brooklyn rapid transit matters, reported to Justice Fursman in the criminal term of the supreme court today. The presentment was made, including a batch of indictments, which were filed. Harry J. Alexander, one of the men indicted by the special grand jury, has been arrested. Alexander is a newspaper advertising agent. Three indictments were found against him, one for circulating false rumors, which is a felony, and two for conspiracy. He pleaded not guilty in court today and was held for trial in $7,000 bail. He was committed pending the finding of bondsmen. Justice Fursman will not permit the other names to be made public until all arrests have been made, stating that the men will be arraigned in court some time during the day.

A MOTHER'S GUILT.

Bloomfield, Ind., March 6.—Mary Ann Anderson, charged with complicity in the murder of her idiotic daughter, Clara Waggoner, on October 5, 1891, was found guilty here yesterday and given a life sentence. William Waggoner, husband of the murdered girl, is now serving a life sentence for the same crime, and George Watson, another son-in-law, is to be tried on the same charge. Leroy Simson, on his death bed, confessed to assisting Waggoner in murdering his wife and throwing the body in a cistern. After Waggoner was convicted he confessed, implicating George Watson and the girl's mother, Mary Ann Anderson. The defendant is seventy years old, and in the last stages of consumption.

"Housework is hard work without Gold Dust"

TO CLEAN NURSERY BOTTLES

After the bottle has been used, rinse it thoroughly in warm water; then fill with warm water containing a teaspoonful of

Gold Dust Washing Powder

and let it stand, shaking every now and then. If rubber tube is used let it remain also in the water. Rinse through clean water several times. Gold Dust is much more effective than soap to clean them, as it removes all specks and motes clinging to the sides of the bottles.

WILD WITH ECZEMA

One of Pittsburg's Most Estimable Business Men Certifies to the Wonderful Efficacy of Cuticura.

"I was a sufferer for eight years from that most distressing of all diseases, Eczema. I tried some of the best physicians in the country, but they did me little good. The palms of my hands were covered, and would become inflamed; little white blisters at first would appear, then they would peel off, leaving a red, smooth surface which would burn like fire, and itch; well, there is no name for it. On the inside of the upper part of both my limbs, great red blotches, not unlike hives, would appear, and as soon as I became warm, the burning and itching would begin. Night after night I would lie awake all night and scratch and almost go wild. I got a box of CUTICURA OINTMENT, a bottle of CUTICURA RESOLVENT, and gave them a thorough trial, and after a few applications I noticed the redness and inflammation disappear; before I had used one box there was not a sign of Eczema left. I can truthfully assert that $2.00 worth of CUTICURA REMEDIES cured me.

CUCUMBER AND TOMATO SALAD.—If you do not eat tomatoes, learn to do so. The taste can be cultivated and acquired and will amply repay the effort. The treatment of cucumbers and tomatoes varies in different localities, but all epicures and most good livers agree that a dressing of some kind improves these delicacies. If you are fond of both cucumbers and tomatoes, no nicer way can be found than to serve them both cut in thin slices and in the same dish with a French dressing or a light mayonnaise.

THE SOCIAL DEMOCRATS.

Indianapolis, Ind., March 7.—Committee reports occupied the morning session of the Social Democratic convention today. As the nominations were made the last order of business it is believed they will not be reached until tomorrow. A committee was appointed to receive the sub-committee from the conference committee appointed by the socialistic labor party convention at Rochester, N. Y., in January, to seek amalgamation. The report of Theodore Debs, secretary treasurer of the party, was read, showing 226 branches with a membership of 40,536. There are branches in thirty-two states. The complete report of accredited delegates to the convention showed sixty two present and a total vote of 1,815. Fred Strickland, of Chicago, was elected permanent secretary for the whole convention. A different chairman, it was decided, would be selected daily.

FIRE IN A FRUIT STAND.

Dominick Lewis, proprietor of a peanut stand on Wells street, near the bridge, suffered almost a total loss of his stock by fire about 10 o'clock Tuesday night. The blaze originated from an oil stove which Lewis had left burning in the place to keep the room warm during the night. Smoke issuing from the closed building attracted the notice of pedestrians and an alarm of fire was turned in. The building was only slightly damaged, but the stock was ruined.

FOOLED WITH A CARTRIDGE.

Walter Stock, eight years of age, a son of Rev. Stock, of New Haven, had the fingers of his right hand badly mangled by the explosion of a cartridge a few days ago. The lad was boring the cartridge out with his knife in order to make a whistle when the explosion occurred, and three fingers were so badly mangled that it was necessary to amputate them at the first joint.

CEMETERY DIRECTORS.

At a meeting of the Concordia Cemetery association Tuesday evening the board of directors for the ensuing year was chosen as follows: William Miller, president; Gottreich Muhlenbruch, secretary; C. A. Kumpe, treasurer; Henry Dicke, August Freese, Frederick Brinkroeger and Frederick H. Scheumann, trustees.

SWALLOWED LAUDANUM.

Miss Myrtle Bushour, residing at the corner of Holman and Lafayette streets, swallowed a large dose of laudanum Tuesday evening, and when discovered some hours later was in a critical condition. Dr. Morgan succeeded in counteracting the effects of the drug and saving the girl's life.

Wherever the flag goes without the constitution it does not stand for this republic and its institutions, but for imperialism. The constitution is the republic.

Indiana is the storm center of the indignation aroused by the bad faith of republicans in congress concerning the status of Porto Rico. It has been a long time since the Indiana republicans were so distracted and panic-stricken.

Henrik Sienkiewicz, the Polish novelist, when asked to sign an appeal for intervention in the South African war, declined on the ground that Russia's treatment of the Poles is worse than Britain's treatment of the Boers is, or will be, and therefore more fitly the subject of a call for intervention.

The Boers have practically ceased to be invaders and henceforth their fighting will be in defense of their own soil. Their stubborn bravery, genius for fighting and skillful tactics have won the world's admiration and they will doubtless on their own ground vastly raise the price of British victory.

General Sir William Butler, who was commander-in-chief and acting governor of Cape Colony before the war broke out, has begun suits, both criminal and civic, against some of the London papers which have been attacking him. Now it is feared that these writs will make a lot of unpleasant revelations in connection with the real and secret causes of the war.

The amendment to the Porto Rican tariff bill by Senator Davis Monday is the cleverest device yet discovered by republican legislators to crawl out of the hole in which the unconstitutional action of the house, under the administration whip and spur, has placed their party. It provides for "extending" certain sections of the constitution over Porto Rico, thereby implying that the constitution does not already extend there in virtue of its inseparableness from the flag and sovereignty. The amendment calls for free trade with the island. But the trust calls in the other direction are louder and more effective in matters of republican policy.

The Post of Houston, Texas, thus speaks of William Jennings Bryan: "The Post welcomes back to Texas this morning that stalwart champion of the great plain people, William Jennings Bryan. After a tour of the eastern portion of the United States of several weeks, after making many speeches daily, and after attending many formal and informal receptions and conferences, the great democrat returns to the banner democratic state of the union as fresh as he was when he left, and still defending the Declaration of Independence, the constitution of the federal union; still upholding the rights of the people and defying corporate greed, imperialistic heresy, and contraction of the people's money. The Post assures the great commoner that the people of the Lone Star state, from the smooth old Sabine to the raging Rio Grande, and from the roaring Red river to the grand old Mexico sea will with one acclaim join it in extending to him a cordial welcome back to our hearts and our homes."

THE DAVIS PLAN.

[Chicago Record.]

The amendments to the house Puerto Rican bill offered in the senate by Senator Davis, of Minnesota, materially alter the character of that measure. The proposition is to give Puerto Rico free trade, as demanded by public sentiment, but joined with it is a suggestion to extend specified provisions of the United States constitution over the island. The manifest purpose is to avoid any precedent for free trade relations with the Philippines. In extending portions of the constitution over Puerto Rico by congressional enactment it is assumed that the constitution may be extended over acquired territory or not as congress wills, and if congress never extends the constitution over the Philippines presumably it will never bring those islands within our tariff zone.

The important thing just now is to have congress establish free trade between the United States and Puerto Rico, and so long as the desired end is attained the manner of its attainment and the theoretical basis for the action are matters for secondary concern. The Puerto Ricans, of course, will not care what constitutional reason is assigned for the passage of the act according them fair treatment. What they want is a free market for their products. With regard to Puerto Rico, the American people will be satisfied with whatever action is just to the Puerto Ricans.

The Davis plan, however, has its dangerous aspects. It emphasizes the intention of those putting it forth to treat the Philippines as territory which may be ruled by congress outside the constitution. So far as the Philippines are concerned, the constitution is never to follow the flag. Those islands are to be kept forever as subject territory. Their inhabitants are to be denied the rights and privileges now apparently to be accorded the Puerto Ricans as a matter of grace. The Filipinos, in other words, are to be singled out as subjects for a distinctively imperialistic policy.

The American people did not cry out at the prospect of injustice to the Puerto Ricans because they held the inhabitants of that island in higher esteem than other islanders. American public sentiment demands that every people brought under American authority and control shall receive fair and considerate treatment. They will be just as quick to resent injustice to the Filipino as to the Puerto Rican. And in so far as the Davis amendments indicate an intention to treat the Filipinos according to the principles of imperialism, they invite trouble for those who may be responsible for passing them. The wisest course would be to provide simply for free trade with Puerto Rico, without attempting now to lay down principles, constitutional or otherwise, for guidance in dealing with other island problems as they may arise.

FAILED TO PRAISE

REPUBLICANS IGNORED THE PRESIDENT.

CONVENTION IN THIRTEENTH

BRICK GETS RENOMINATION AND NO ENDORSEMENT.

SILENT ON ADMINISTRATION

NOMINEE WAS NOT PRESENT AT CONVENTION.

Elkhart, Ind., March 7.—Republicans of the Thirteenth congressional district here yesterday deliberately pigeonholed resolutions complimenting the McKinley administration and the record of Representative A. L. Brick, of South Bend, who voted for the Porto Rico tariff bill.

The convention was controlled by republicans who are opposed to tariff restrictions on the island possessions and had another candidate been available it is probable that Brick would have been turned down. As it was, Brick was renominated, but the convention was silent as to his official record. An effort was made to induce A. P. Kent, editor of the Elkhart Review, to accept the nomination, but he declined.

TEMPER OF DELEGATES.

The sentiment of the delegates became apparent early in the convention, when J. H. Stale, one of the most outspoken opponents to the Porto Rico tariff, was made chairman. There were indications of trouble from the beginning, but the factions got together and a truce finally was arranged.

Pressure was brought to bear on the resolutions committee, which had prepared the usual indorsement of everything republican, to expunge some paragraphs indorsing the national administration and Congressman Brick, whose record, with the exception of his vote for the Porto Rico tariff, had been most satisfactory. These paragraphs accordingly were omitted and a scene on the floor of the convention was thereby avoided.

SUBSTANCE OF RESOLUTIONS.

The resolutions as reported and immediately adopted declared for the gold standard, the retention of the new island acquisitions, the Nicaraguan canal controlled by the United States, and indorsed James S. Dodge, of Elkhart, for governor, and Clem Studebaker, of South Bend, for elector at large.

Mr. Dodge made a speech, in which he urged conservative thought in criticising those in authority and responsible for the destinies of the nation.

OPPOSITION IN CONTROL.

Before the meeting of the convention it developed that any attempt to indorse the administration on the Porto Rican question or congressmen for their vote to pass that bill would be vigorously opposed on the floor.

The opposition came from the Kosciusko and Elkhart county delegations, and the only active supporters of the proposed indorsements were the St. Joseph delegates, who were loyal to their congressman.

The fight was conducted quietly and without bitterness, the defenders of the bill and its advocates submitting without controversy, rather than provoke a showing on the floor.

The general feeling was that a mistake had been made, though the delegates were not disposed to carry their disapproval further than an omission of the indorsement. When it was decided to eliminate these paragraphs if was further decided to make the resolutions completely impersonal and a paragraph complimenting the Indiana senators was also expunged, as was one referring to Colonel Dodge but his indorsement was accomplished by presentation of a motion from the floor.

Judge Biggs was the chief spokesman of the objectors and District Chairman Elmer Crockett, of South Bend, was the principal adherent of the administration. Congressman Brick's non-appearance was interpreted by many to be due to a fear of embarrassing questions. He wired that important committee business in Washington prevented his coming.

W. C. T. U. NOTES.

The Woman's Christian Temperance union met at the Berry Street M. E. church Tuesday afternoon, but adjourned to the home of the president, Mrs. Carpenter, where a very interesting business meeting was held. Three members were added to the union by membership cards from Bourbon, Ind.

The county president reported a union organized at Sheldon.

The Allen County W. C. T. U. institute will be held at New Haven in April.

The superintendent of press work read a letter from the state superintendent, in which she urged that more press work be done in the city.

A "Parlor Press Meeting," with a special outline program is a subject now under consideration.

The president reported having made $2.20 by taking subscriptions for the paper to be published by Rev. Mr. Sheldon at Topeka, Kas., The Topeka Daily Capital. Friends and members wishing to subscribe for this Christian paper, as well as add to our treasury, can apply by phone to Mrs. Carpenter, corner Lewis and Clinton streets, the first copy to be published March 13th.

The greatest need of the hour is more workers. If not adapted to one department let us take up another, for in the forty-two departments of the organization there is work for all interested in any line of reform work. We fear some of us are sleeping "In the main top," and the raging breezes will not only engulf us, but out city and nation. "Doing nothing is doing ill," and indifference is a crime and will be punished. Cheer up, despondent worker, and fall in line. All God asks of us is to be true and do the best we can. Are we doing it? Supt. Press Work.

BLAINE AND CANAL TREATY

LEW WALLACE SAYS IT WAS FORMALLY REPUDIATED.

Famous Indiana Author and Soldier Recalls Some Personal Knowledge of Matters.

Crawfordsville, Ind., March 7.—General Lew Wallace asserts that James G. Blaine, when he was secretary of state, formally repudiated the Clayton-Bulwer treaty and so notified Great Britain on behalf of the United States.

"The Porto Rican affair is bad enough," said General Wallace, "but it is not so bad as the new treaty for the Nicaragua canal. The difference is between a statute that can be repealed by the next congress and an international agreement defiant of alteration or amendment except by the consent of sovereign powers.

"During the administration of President Harrison, Mr. Blaine, as everybody knows, was secretary of state. I called at his house by invitation. He sent word for me to wait awhile for him. He came in at length, and, in apology for keeping me waiting, said he was just finishing a dispatch in relation to the Clayton-Bulwer treaty.

"Correspondence had been going on for a long time, our contention being that the treaty was dead. The British has persisted in holding otherwise. Seeing that a canal under American control across the isthmus was an American necessity, Mr. Blaine was concluding, when I came in, a formal notice that the United States refused longer to be bound by the treaty. Now I take it that Mr. Blaine did what he said, for he was that kind of a man; and I also take it that what he did in connection with the treaty was with the knowledge and approval of President Harrison, though I do not pretend to have knowledge of the ex-president's action in the matter. If some one in congress should call for the whole correspondence upon the treaty question, I am confident it will be found repudiated, as I have said."

GETS A NEW CLERK.

The growth of business at the Fort Wayne post office has induced the post office department to add one assistant clerk to the force of the office in this city, and Guy J. Gilbert, of Angola, has been selected from the eligible list to receive the appointment. Mr. Gilbert is a brother of Senator Gilbert, and for three years has been assistant postmaster at Angola, which will render his services additionally valuable in his new capacity. The salary of the new position is $600 per year, and Mr. Gilbert will begin work March 16.

LAWTON'S SLAYER REWARDED

A STARTLING STORY COMES FROM PHILIPPINES.

Filipino Conspirators Said to Have Put a Price on the Heads of American Officers.

San Francisco, March 7.—By latest mails from Manila a startling story of intrigue against American officers by high Filipino citizens reaches this city. The story is published in the New Orient, a Manila newspaper, but has never been cabled, perhaps because of the refusal of the censor to allow it to go out from Luzon. It is believed to be authentic. It says:

"It is known that the insurgents attempted to kill General Lawton while on the north line, and the occasion was when Major Howard was killed on a river boat. The rebels had learned that Lawton was to take that boat, and made a desperate attempt to kill him, but killed Major Howard instead. General Lawton owing to some accident, did not take the boat, as he intended.

"When the news of Lawton's death reached Manila there was great rejoicing in certain native circles. In the Binondo and Tondo districts particularly was this the case, and it was at once proposed to raise a purse to reward the man who slew him.

"The officers of the Katipunan society took charge of the affair, and among those particularly active in the matter were Sr. Poblete, editor of El Pueblo del Grito; Arevalo, the dentist, and Arellano, of the supreme court. Poblete was treasurer, and within twenty-four hours he had in his hands more than $100,000 of voluntary contributions.

"After a hurried consultation it was decided that this was too large a sum to be given to the slayer of a single man, and the reward was fixed at $20,000. The man who did the deed was a second lieutenant of the guardia civile, named Garcia, and it was considered that the entire sum was too large to be given to a man in his position. After further discussion the reward was raised to $25,000 and the amount paid over, as it was proved he was the man to whom the death of General Lawton was due, and that he was therefore entitled to the reward.

"The balance of the cash on hand was placed in a fund for the purpose of rewarding such patriots as might in the future be fortunate enough to rid their country by death of hated American officers.

"Further contributions were solicited, and the money is still pouring into the treasury. At present Senor Poblete, who still acts as treasurer, has on hand more than $200,000, and the sum is steadily growing. A regular schedule has been adopted, and any native who can compass the death of an American officer of the rank of colonel or higher will receive a reward proportioned to the rank of his victim."

TELEPHONE MEN COMBINE.

Terre Haute, Ind., March 7.—Representatives of the independent telephone companies of this state and Illinois met yesterday afternoon for the purpose of forming a permanent organization under which their interests could be better protected and their patrons be furnished better service. The main object of the meeting was to agree upon a working basis whereby the interests of each individual company would be protected against being compelled to sell to the larger companies by reason of the purchase of connecting lines in its vicinity and to make such other laws as would be of mutual benefit. A committee was appointed to prepare a schedule of uniform charges for long distance service. The organization will be known as the Inter-State Telephone association. A constitution and by-laws were adopted and signed by representatives of the following companies: Parke County Telephone company, the Waveland Telephone company, the Clay County Telephone company, the Schance & Fair Telephone company, the Home Telephone company, the Paris and Kansas (Ill.) Exchange, the Kentucky and Indiana Telephone company, the Citizens' Telephone company, of this city, and the Oakland Telephone company.

Fire and Catarrh

If there is a fire in your cellar you put it out with water. If the flames are in the kitchen you use water again. If the fire is located in the second story, water is the agent to subdue it. If in the attic, water is still your salvation. Fire is fire, and no matter where located, water puts it out.

Your body is a house of many stories. It is lined throughout with a marvelously sensitive mucous membrane. Whenever this membrane becomes irritated or inflamed, the result is Catarrh. When you catch cold, you have Catarrh of the head, or eyes, or ear or nose. Bronchitis is Catarrh of the bronchial tubes. Pneumonia is Catarrh of the air cells of the lungs. Consumption is Catarrh of the lungs. Heartburn and Dyspepsia are Catarrh of the stomach. Kidney troubles are Catarrh of the kidneys. Biliousness is Catarrh of the liver. Leucorrhoea is Catarrh of the pelvic organs in women. Almost everyone has Catarrh in some form.

Pe-ru-na is the name of a medicine that cures Catarrh in any part of the body, the same as water extinguishes fire in every part of a house. It is a long tried specific for Catarrh in every complication and phase. It restores the delicate pink membrane that lines the inside of the body to a perfectly normal condition, and thus makes the sick well. It is a universal remedy for that universal disease—Catarrh. It is the only true Catarrh cure known to medical science.

MUNICIPAL NEWS.

SOUTH WAYNE SEWER UNDER CONSIDERATION.

MR. ADAMS ASKS MORE TIME

LOWER BIDS CAN CERTAINLY BE SECURED.

COUNCILMEN DISCUSSED GAS

WILL VISIT THE FIELDS AND WELLS THURSDAY.

The members of the board of works are dissatisfied with the bids offered on the South Wayne sewer and are of the opinion that if readvertised lower bids will be received. Mayor Scherer has expressed himself as favoring a lower bid and save, if possible, hundreds, maybe thousands, of dollars for the South Wayne property owners.

A telephone message was received Tuesday afternoon from Mr. Adams' representative, who is in Columbus, requesting the board of works to delay action until Thursday afternoon inasmuch as Mr. Adams was in Chattanooga.

ALL BIDS REJECTED.

The telegraphic request of the Columbus people was unheeded by the board of works, and when the session opened at 2:35 o'clock this afternoon the South Wayne sewer matter was disposed of in short order.

Mr. McCracken moved the acceptance of the lowest bid, and gave as his opinion that the price was as low as could be secured. He stated that he had talked with South Wayne people and they were willing to pay the price; some of them had told him it was lower than they had anticipated. Mr. McCracken believed there was danger of subsequent bids being higher than the proposition of Messrs. Adams—$7.63 per lineal foot. Mr. McCracken thought the rejection of the bid might mean the defeat of the sewer.

Chairman Eggemann took the opposite view of the matter and stated that he believed lower bids could be secured by re-advertising the work, and his motion to reject all bids was supported by Mr. Kane. When the votes were called Mr. McCracken answered: "No; decidedly no."

Clerk Schmidt was directed to at once re-advertise for new bids on the sewer. The bids will be opened Thursday evening, March 22, which is the earliest date possible under the law.

COMMITTE WILL MEET.

The committee on contracts and franchises will meet this evening in City Clerk Monning's office to discuss the interurban franchise. Action will probably be taken on some of the suggestions made at last Saturday evening's meeting, but it is not believed a report will be made at the next council meeting.

TALKED ABOUT GAS.

At the conference in City Attorney Shambaugh's office yesterday there were present besides the city attorney, Councilmen O'Ryan, Clark, Zurbuch and Buhr, Allan H. Dougall, one of the experts, and Messrs. H. C. Paul and Max Hoffman, representatives of the gas company. Chairman Bauer was unable to attend and requested Comptroller Berghoff to be there in his place.

Mr. Dougall was questioned as to the methods of examination into the books and he gave quite a detailed account of the work. There had been 25,000 vouchers examined and in only two instances was there any discrepancy, and this amount was less than $2. He said that he and Mr. Hunter had visited the gas fields and made inquiry as to the supply of gas and the methods of pumping and satisfied themselves on all matters before making final report. Mr. Dougall had a thorough knowledge of the gas business and the members of the committee were well pleased with his explanation.

Messrs. Paul and Hoffman informed the committee of the nature of the improvements the company would make. First, Mr. Paul said, the fact that he offered to expend $140,000 the first year and $60,000 each year thereafter did not mean that was all that would be spent. The company wanted to furnish plenty of gas and if more money was needed it would be expended. A new pumping station would be built at Mollie, a little village five miles north of Montpelier and nineteen miles south of Bluffton. At present there is a pressure of 150 pounds, which is greatly reduced when the gas reaches Bluffton. With a new pumping station at Mollie the gas can be brought to Bluffton at a high pressure and Messrs. Paul and Hoffman believe that then the company can guarantee plenty of gas to Fort Wayne consumers for three years at least. An additional pipe line will be laid from the reducing station south of the city to the city limits. It is also intended by the company to lay a ten-inch pipe line alongside the tracks of the Pennsylvania company from Broadway to Lafayette street, and through this pipe gas will be furnished to the down town district. The gas supply in Nebraska has always been sufficient and Mr. Hoffman said that the Bloomingdale pipes would be connected with the high pressure line in Nebraska and thus guarantee to the Ninth warders plenty of gas.

Mr. Hoffman displayed some maps showing the location of the gas wells and the entire gas fields. In 1897 there were about twelve lines piped from the gas district to surrounding cities in and out of the state and now there are more than thirty lines, and it was stated that not one of these lines could be extended ten miles without crossing one of the other lines. The Fort Wayne Gas company has control of about 400 acres of gas fields, but the pressure is not strong enough to force the supply to this city without an additional pumping station. The maps also showed that there was a diminishing supply of gas.

There were some matters which the council were desirous of investigating and it was determined to visit the gas fields, the Bluffton pumping stations and two or three of the cities in the gas belt to make inquiry. Accordingly it was arranged that the members of the council should go in a body to the gas fields Thursday. The train will leave over the Lake Erie and Western shortly after 7 a. m., and return at 6 o'clock in the evening.

INCREASE THE DEMAND.

Massilon, O., March 7.—As a result of unlooked-for demands presented by the miners of the Massilon district, the joint conference between miners and operators has been adjourned until March 15. The Indianapolis convention fixed the mining rate for Ohio districts at 80 cents, an increase of 14 cents over last year. The Massilon district miners now demand 90 cents per ton and the re-establishment of the 15 cent differential between this and the Hocking Valley districts. They also requested a substantial increase in the rate paid for miners' day work. Prominent operators say the demands of the miners will not be granted, while the miners insist they will hold out for the scale submitted.

DEATHS AND FUNERALS.

CONWAY.

Mrs. Catherine Conway, whose home was at 47 Bass street, died at St. Joseph hospital at 7:30 o'clock Tuesday evening, from paralysis. Mrs. Conway had been a patient at the institution since Saturday. She was a native of Ireland and had reached the age of 65 years. Her son, Anthony Conway, is a brakeman on the Grand Rapids and Indiana railroad.

The funeral services will be held Thursday morning at 9 o'clock from St. Patrick's Catholic church.

FUNERAL ANNOUNCEMENTS.

Richards.—Funeral of Miss Estella B. Richards will be held from her late home, 9 Edgerton street, tomorrow afternoon at 1 o'clock and at 1:30 from the Baptist Tabernacle. The pall bearers will be Messrs. Edward Fuestel, John Potter, Morton Mills, Gerry Bates, Charles Pearson and John Sthair.

Reidt.—Funeral services of Mrs. Catherine Reidt will be held from St. Mary's Catholic church Thursday morning, at 9 o'clock.

A NEW BOOK.

Just from the Press of Dodd, Mead & Co.; price $1.50.

A captivating romance of the fifteenth century. "Joan of the Sword Hand" is a charming young princess, who is none the less charming for her ability to defend herself and her kingdom when the necessity arises (as it does more than once) by her dextrous use of the sword. Especially does this accomplishment serve her in good stead when, secretly and in disguise, she visits the court of the royal suitor who has been chosen for her, determined that unless her heart sanction it, the marriage shall never take place. As might be expected, the adventurous Princess Joan falls in love with some one else, and her adventures thereafter are many and exciting. Mr. Crockett has never done better work than in "Joan of the Sword Hand."

MRS. LAWTON GETS MONEY.

Washington, March 6.—General Corbin today turned over to Mrs. Lawton, widow of the late Major General Lawton, the fund subscribed by the people of the country. It amounted to $93,432.07.

Rud. Lehman, the Berne banker, is in the city on a business trip.

BASE BALL MAGNATES MEET

IN SESSION TO ADOPT THE SCHEDULE.

Eight Club League Project Is Still Held Up by the Demands of Baltimore Owners.

New York, March 7.—The annual schedule meeting of the National League and American Association of Base Ball clubs began at the Fifth Avenue hotel today. There were present W. H. Conant, A. H. Soden and J. B. Billings, of Boston; Charles Ebbetts and Treasurer F. A. Abell, of Brooklyn; Colonel John I. Rogers and "Al" Reach, of Philadelphia; Edward Hanlon and Harry Vonderhorst, of Baltimore; J. Earl Wagner, of Washington; "Barney" Dreyfuss, of Pittsburg; James Hart, of Chicago; Frank De Hass Robison, of St. Louis; Stanley Robison, of Cleveland; John T. Brush, of Cincinnati, and Harry Pulliam, of Louisville.

Mr. Conant, just as he was leaving the hotel, said:

"I have not received the New York club proxy, and I do not care to vote it. I am going down town to see President Freedman now. He has telephoned for me."

According to President Dreyfuss the circuit committee has finished its labors and is ready to make its report to the league. What the report contains none but the directors know. All efforts at a reduction of the circuit to eight clubs have been blocked by the Baltimore people, who are holding out for a big price for their franchise. "You may safely say that it will be a ten-league club," said Mr. Hanlon, of Baltimore, just before the meeting began. "I am in a position to know and that is my prediction."

President N. E. Young has made a proposition for an emergency. He has prepared schedules suitable for eight or ten clubs, and will present them to the league. The meeting will probably last three days and the schedule will be taken up the last thing.

KILLED A COLORED GIRL.

Columbia, S. C., March 7.—At Duncan, Spartanburg county, yesterday Mrs. M. J. Burton, a young married woman, went from her house into the public road, where she saw Lucinda Smith, a bright mulatto girl, coming. As the girl walked by Mrs. Burton, who had a pistol concealed under her arm, presented it and fired. The bullet entered near the spine and passed through the heart and liver. Mrs. Burton went back into the house and the body of the girl lay where it fell until the coroner took charge of it. The woman was then arrested and taken to Spartanburg jail. The young wife, accused of the murder, has uttered no word to indicate the cause of her action, but the gossip of the neighborhood is that the mulatto girl was infatuated with Burton and pressed her attentions on him.

BACK TO SCHOOL.

Wabash, Ind., March 7.—Clyde Motter, son of Cyrus Motter, a well-known resident of Grant county, and Miss Blanche Fansler, daughter of Dr. and Mrs. D. N. Fansler, of Marion, were secretly married, the ceremony taking place at Indianapolis. Miss Fansler, a pretty society girl, was attending school at St. Mary's of the Woods, near Terre Haute, and young Motter proposed last July, that they wed clandestinely. Within a few days she met him at Indianapolis, where the ceremony was performed, the young lady returning to St. Mary's and young Motter to Marion. The secret has been carefully guarded for eight months and both have received parental blessings.

WILL EQUIP A STATE GUARD.

Frankfort, Ky., March 7.—In the senate today Senator Tripplett offered a substitute for his resolution to provide for a committee to investigate the removal of munitions of war from the arsenal to London. The substitute proposed to appropriate $100,000 for the immediate equipment of a state guard under Democratic Governor Beckham and Adjutant General Castleman, and for the purpose of recovering military property of the state alleged by the resolution to be in unlawful possession of Republican Governor Taylor.

BLEW OPEN THE SAFE.

Pawtucket, R. I., March 6.—Burglars entered the office of the Hand Brewing company during the night and blew open the safe with dynamite. It is said between $3,000 and $4,000 is missing.

BUBONIC PLAGUE SUSPECTED.

San Francisco, March 7.—A case of what is supposed to be bubonic plague, though the exact nature of the disease is yet uncertain, has been discovered in Chinatown. The patient, who is a Chinese residing at 1004 Dupont street, was immediately isolated and the whole of Chinatown has been placed under strict quarantine regulations. No fear is apprehended of the spread of the disease whatever it may prove to be.

GERMAN TARIFF SCHEDULE.

Washington, March 7.—The German government has caused to be prepared a new tariff schedule, differing considerably from the existing schedule. Vice Consul General Hauer, at Frankfort, who reports the fact to the state department, says that the most noticeable feature of the new schedule is its minute specialization of articles. It contains 1,365 numbers. The principal purpose appears to be a closer grading and this, says the consul, will effect many articles of American manufacture, such as bicycles, machines and fine iron ware.

It is reported that there are to be two new churches built in the near future at the little city of Woodburn.

MAYSVILLE AND VICINITY.

E. C. Reichelderfer and family, of Antwerp, spent Saturday and Sunday with Mrs. Reichelderfer's parents.

The body of William Hemrick, buried in the Scipio cemetery some time ago, was ordered taken up by the coroner and a post mortem followed. It was an illegal burial, no permit having been obtained as required by law. In such cases the coroner must proceed as he did. The occurrence has created much comment and no doubt will thoroughly advertise the law, of which some people are still ignorant. It will also be a lesson to the undertaking fraternity, as there are those who ignored the law in its requirements of them.

John Stapleton, a resident of Milan township, died at the home of his daughter Friday, the 2d inst. The funeral was held at the M. E. church Sunday, 4th inst., Rev. L. C. Zimmerman officiating. The interment took place in the new cemetery. A wife and family of grown children remain to mourn his departure.

Revival services will begin at the U. B. church next Sunday evening. A meeting is also being held at East Springfield and at Scipio. A large number attended the service at Scipio Saturday night, going from here, giving the pastor a pleasant surprise.

OPPOSE HABEAS CORPUS.

New York, March 7.—Captain McClusky, of the detective bureau, went to Philadelphia today to oppose the granting of a writ of habeas corpus in the case of Alfred R. Goslin, whose arrest was made in that city at the request of the New York police in connection with the Brooklyn rapid transit indictments. Requisition for Goslin has been made on the governor of Pennsylvania and it is said that it will be honored and the prisoner brought back to New York by Captain McClusky.

Irrigation work in Mexico is making a heavy demand for iron pipe, dredging, excavating and pumping machinery.

GRANDCHILDREN THERE.

Washington, Ind., March 7.—Jacob Chestnut, a feeble, gray-haired man of 60 years, was yesterday united in marriage to Miss Ainley Dinkins, a 17-year-old girl. The written consent to the marriage from the girl's parents is on file at the county clerk's office. The groom had on three previous occasions ventured upon the matrimonial sea, and at the ceremony yesterday seven of his grandchildren were present.

Queen "Lil" Insists on Her Royalty.

Paris has long been the asylum of dethroned royalties, but Washington bids fair to rival that proud city in this regard, and has already many princesses and one queen to her credit. Lydia Lukakani, former monarch of the Sandwich Islands, has finally decided to establish himself permanently at the American capital, and, although her heart often longs for Hawaii, her dusky highness will spend the rest of her life in Washington, where the legislators of the country will occasionally hear from her regarding the wrongs she has suffered at the hands of an ungrateful country and through the connivance of Uncle Sam.

Queen "Lil," as she is irreverently called, has not surrendered her royal prerogatives without a struggle, and still insists upon the ceremony that surrounded her when she was on the throne. No one is allowed to sit when she is in the room until he receives a signal from her to do so; she is invariably addressed by her attendants and friends as "your majesty," those who neglect this title being angrily reproached for so doing, and every one is expected to back from her presence.

Sunshine and Rain in Europe.

Statistics obtained by sunshine recorders are interesting. Some curious facts have been recently published by the French meterological bureau at Paris. Spain has 3,000 hours of sunshine a year, Italy 2,700, France 2,600, Germany 1,700, while England has but 1,400.

The average fall of rain in the latter country is greater than that in any other European country. In the northern part and on the high plateaus of Scotland about 251 inches of rain fall a year, and London is said to have an average of 178 rainy days in the year and fully 10 times the quantity of rain that falls in Paris.

How Two Brothers Prospered.

Carl Haenser, the German humorist of New York, says that he met a friend one day who looked very prosperous although a few months before he had been quite shabby.

"You are doing well now?" asked Haenser.

"Making money," was the response "selling the only genuine indelible ink in the market."

"How's your brother?"

"Doing finely with an ink eradicator which takes out my ink instantaneously."

Reason for It.

"Why is she only in half mourning? Of course, she married old Skinphint for his money, but she might to respect his memory now that he's dead."

"Oh, she thinks she's doing all that's required under the circumstances. He only left her half his fortune."

Women in the Role of Inventors.

From 1884 to 1895 women have taken out 3,805 patents. Women have invented many important things. The woman who began by inventing a corset is now inventing reservoirs and dams. Another woman has invented a lock with 3,000 combinations and a letter box now in daily use for houses.

Worn by Luther and His Wife

Two silver rings, of which one is in Paris and the other in Germany, have associations of rare interest. They were worn by Martin Luther and his bride, Catherine de Bora, on their wedding day in 1525. The rings bear on the inside the names of Martin Luther and his wife, and on the outside are engraved the spear, nails and rupes, the symbols of Christ's suffering and death.

What Do the Children Drink?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee, but costs about ¼ as much. All grocers sell it. 15c and 25c.

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His head and body were a mass of sores, and his eyesight also became affected. No treatment was spared that we thought would relieve him; but he grew worse until his condition was indeed pitiable. I had almost despaired of his ever being cured, when by the advice of a friend we gave him S. S. S. (Swift's Specific). A decided improvement was the result, and after he had taken a dozen bottles, no one who knew of his former dreadful condition would have recognized him. All the sores on his body have healed, his skin is perfectly clear and smooth, and he has been restored to perfect health.

For real blood troubles it is a waste of time to expect a cure from the doctors. Blood diseases are beyond their skill. Swift's Specific,

S.S.S. For The Blood

reaches all deep-seated cases which other remedies have no effect upon. It is the only blood remedy guaranteed purely vegetable, and contains no potash, mercury, or other mineral.

WAS BURIED ALIVE

HORRIBLE FATE OF A ST. JOE COUNTY WOMAN.

FOUGHT TO ESCAPE COFFIN

DIED DURING AN EPILEPTIC ATTACK.

A MAN WEDS STEPDAUGHTER

GENERAL NEWS OF THE STATE OF INDIANA.

South Bend, Ind., March 7.—A sensation has been created here by the publication of a statement that Anna Guither was buried alive. According to the report the grave was not completely filled until the day after the funeral. Then the casket was opened and the woman was found with disheveled hair, a torn and contorted face, finger nails bitten off, and turned over in the coffin, the glass of which had been broken. Anna Guither died, it was supposed, near this city December 30, of epilepsy, and was buried at Cedar Grove cemetery, near here. It is impossible to prove the truth or falsity of the burial today.

DOWIE'S MAN GAINS A POINT.

Hammond, Ind., March 7.—The mobbing of Dowie in this city some months ago is recalled by a decision of Judge Gillette, of the Lake circuit court. At that time Carl Struck, Dowie's coachman, was arraigned in the Hammond city court for assaulting ex-Marshal Walker and fined $5. He appealed to the circuit court. There he was fined $100.

Judge Gillette, however, has granted him a new trial, or, if the defendant prefers, will enter judgment on the jury's verdict and remit $375 of the fine, as that amount is in excess of the sum the jury had power to inflict, the judge says. The court from which the case was taken cannot fine more than $25 and on appeal the original court's jurisdiction cannot be extended.

Judge Gillett pronounced the fine excessive and caused by passion and prejudice. It is said Dowie will have Struck accept a new trial.

ELOPES WITH STEPDAUGHTER.

Muncie, Ind., March 7.—The sequel to a sensational divorce case came to light when it was learned that Jacob Eichels, a prominent citizen, had eloped with his eighteen-year-old stepdaughter, Flora Weaver, and was married to her in Covington, Ky. Last summer the girl swallowed poison in an attempt at suicide and afterward stated that it was because of persecution from her stepfather, who loved her. She was revived and a second attempt caused Eichels to sue for divorce. This was refused and his wife then entered a cross-complaint and was granted a divorce. Miss Weaver was sent to Indianapolis, where she was taken care of by her own father. It was recently learned that she and her stepfather were holding clandestine meetings in Anderson and the termination came yesterday, when they met at Indianapolis and went straightway to Cincinnati.

STRICKEN BY TRICHINOSIS.

Valparaiso, Ind., March 7.—A few days ago Fred Hoemann, near this city, killed a hog. He divided the meat with his relatives. Sunday Mrs. Hans Lohse and three children and Mrs. Fred Hoemann and four children were stricken down. Physicians were called and it was found they were suffering from trichinosis. Yesterday Lillie Lohse, aged fifteen, died. Two children of each family are lying at the point of death and their recovery is doubtful.

REMARKABLE LIFE ENDS.

Crawfordsville, Ind., March 7.—Elder Jonathan Van Cleave, ninety-four years old, died last night at his home, nine miles west of Crawfordsville. He was a national leader in the Primitive Baptist church, and had been pastor of the Indian Creek church for over sixty years. He preached all over Indiana, Illinois and Missouri, and never received a cent for his services. He died on the farm he entered in 1826. Mr. Van Cleave was a life-long democrat, his first vote being cast for Andrew Jackson. Elder Van Cleave was a remarkable man in many ways, and although an intense partisan in politics and religion, he was generally respected.

A PERILOUS EXPERIENCE.

Wabash, Ind., March 7.—There was a wild scramble of workmen on the limestone bluffs east of the Big Four railroad yards of this city. Laborers employed by the Bridges brothers, contractors, were removing the tools from the bluff, and were in the act of taking a quantity of dynamite from a small house, perched on the crest of the hill. In some manner they dislodged the support of the structure, which rolled down the steep declivity over 100 feet, and struck violently on the stones at the bottom. In the house were over 400 pounds of dynamite and a large number of percussion caps. When the men saw the house start, they yelled a warning to railroad men below and fled for dear life, expecting a terrific explosion. Miraculously there was no detonation, or loss of life would have resulted. The scattered dynamite was picked up and hauled away.

HARMONIZING EFFORT.

Logansport, Ind., March 7.—When the spring meetings of the Dunkards occur it is thought an effort will be made to harmonize the differences between the three branches and bring them together. The conservative branch will meet at North Manchester; the progressive element will gather in Carroll county, and the old order will meet at Camden. The conservatives have the largest membership, with the progressive branch next. The three divisions separated several years ago, when members of the conservative and progressive orders became too worldly for the old order, and the national conference was unable to adjust the differences. There was a contest in the courts between the conservatives and old order over the property rights, the court finding in favor of the conservatives. The three branches will hold their annual meetings in June, and the total attendance will be about 50,000, delegations coming from all parts of the United States.

FOUND IN THE KLONDIKE.

South Bend, Ind., March 7.—One of the girls employed at the Studey knitting mills wrote her name on a bit of paper, while at work two years ago, and slipped the paper in a garment she had knit. A few days ago she received a letter bearing the postmark of a Klondike mining camp. The letter said the writer was wearing the apparel the girl had knit, and he had found her name and address. The letter was a straightforward one, giving information of the miner, and concluded with the question, "How would you like to live in the Klondike?" The girl has not made known how she will answer the question.

PETITIONING TO INCORPORATE.

Auburn, Ind., March 7—A petition, signed by more than half the voters of Auburn, was presented to the town council praying that a vote be taken to change from a town to a city government. The board ordered a special election, to be held March 26. The recent temperance move to abolish saloons will probably defeat the contemplated change.

NORTHERN INDIANA NOTES.

The people of Rich Valley, Wabash county, will hold a big fox drive, centering on the Burton Harrison farm, March 13.

Harman Witt, an Elkhart saloonkeeper, went to sleep in a chair in his place of business. Before he awoke his pocket was picked and $81 disappeared.

Mrs. John Kalmargan, of Mill Creek, was in South Bend searching for her husband, aged 21 years, who left home Thursday without warning or giving any reason.

Alonzo Seymoure, a young man of South Whitley, died suddenly Monday, and it is believed he suicided. The coroner is investigating. He was seen to take a white powder in a glass of water in a saloon.

The first rural mail delivery route for Wells county will be established on Monday, April 2, with W. D. Burgan as carrier. The length of the route to be covered is twenty-four miles; area covered, thirty-eight square miles, and population served, 575.

A Kokomo concern engaged in the manufacture of woven-wire fences and fence machines, has received a large order for material and machines, to be shipped to Kaka, Burmah. It is the first of the products of Kokomo manufactories to find their way to Asia, though the same concern sells rather extensively in South America, South Africa and Australia.

The erection of a beet sugar factory at North Judson, which was to have been done this season, has been postponed for a year. There were several reasons for this postponement. One was the excessively high prices of building materials. Arrangements have been made to have all beets grown by the farmers in the vicinity of North Judson manufactured into sugar at the Pekin (Ill.) factory.

THE MARKETS.

Chicago, March 7.—During the forepart of the session on the board of trade the wheat market was firm, helped principally by the strength at Liverpool. May opened unchanged at 66@66⅛c and quickly touched 66⅞@66¾c. On the bulge there was some liberal profit-taking. May declined to 65⅞c, but reacted to 66⅛c upon the cessation of this pressure. It was mostly a scalpers' market. The Ohio official marked the wheat condition at 56 per cent., or 19 points under the condition of January 1. This received some concession. Local receipts were 34 cars, none of contract grade. Minneapolis and Duluth reported 622 cars, against 523 last week and 399 a year ago.

Later the St. Louis break, lack of cash demand and a poor export inquiry caused selling. May declined to 65⅜c and closed barely steady, ⅜c under yesterday at 65⅝@65¾c.

Corn was quiet but firm, helped by moderate receipts and strong cables. May opened a shade higher at 35⅝@35¾c and touched 35¾c. On the bulge there was little pressure to sell. Local receipts were 377 cars, 27 over the estimate.

A big trade was done in corn later in the session. It was asserted that a Baltimore exporter had within two days taken 1,500,000 bushels and that a secret freight cut of 2½ cents on export corn to Boston had been made. May touched 35¼c and closed firm, a shade over yesterday at 35@35⅛c.

The oats market exhibited only the faintest signs of life early, but held steady with corn. May opened a shade under yesterday at 23⅝@23½c, but recovered. Receipts were 185 cars, 25 over the estimate.

Provisions at the opening exhibited a tendency to repeat the story of yesterday—one of unusual dullness. The firmness of grain and of the hog market had a steadying effect. May pork opened 2½@5c up at $10.65@10.67½; May lard 2½c higher at $5.90, and May ribs 2½c improved at $5.35.

THE CLOSE.

Prices at the close were as follows:

Wheat—March, 64½c; May, 65⅝@65⅞c; July, 66⅝c; Sept., 67⅛c.

Corn—March, 33½c; May, 35½c; July, 35¼c; Sept., 35⅝@35¾c.

Oats—March, 23¾c; May, 23⅝c; July, 22½c.

Pork—March, $10.50; May, $10.60 July, $10.65.

Lard—May, $5.77½; May, $5.87½; July, $5.95@5.97½.

Ribs—Mar., $5.82½; May, $5.82½; July, $5.85.

Flax—Cash N. W., $1.60; Cash S. W., $1.60; May, $1.58; Sept., $1.10½; Oct., $1.05½.

CHICAGO LIVE STOCK.

Chicago, March 7.—Cattle—Receipts, 10,000; market generally 10c higher. Good to prime steers, $5.10@6.00; poor to medium, $4.00@4.90; stockers and feeders, $3.40@4.75; cows, $3.00@4.35; heifers, $3.25@4.65; canners, $2.25@3.00; bulls, $2.65@4.50; calves, $4.75@7.75; Texas fed steers, $4.00@5.00.

Hogs—Receipts today, 23,000; tomorrow, 20,000; left over, 5,332. Market strong to 5c higher; top, $4.97½; fair clearance. Mixed and butchers, $4.70@4.95; good to choice heavy, $4.85@4.97½; rough heavy, $4.70@4.80; light, $4.65@4.87½; bulk of sales, $4.80@4.90.

THE DAY ON WALL STREET.

New York, March 7.—The market opened very dull and hesitating in tone. Changes in the specialties were mixed. The railroads as a rule showed small advances, but not up to the London parity. Consolidated Gas and Anaconda lost a point each.

The market took a downward course, losses in Tobaccos, People's Gas, Sugar and Third Avenue ranging from 1 to 2 points. There was very light doing in the railroad stocks, but the prominent issues were slightly lower.

The short interest was driven to cover in American Tobacco and the stock rallied a point above yesterday's close. Traders bid up the Steel stocks coincident with the rise in Tobacco. Republic Steel preferred gaining a point or so. Colorado Fuel advanced 4½ and Pittsburg, C., C. & St. Louis 7 points. Weakness then developed in the railroad stocks, the decline from the best in Burlington reaching a point, and some of the specialties reacted sharply.

The bond market was steady. The Standard Rope issues rose strongly.

NEW YORK PRODUCE.

New York, March 7.—Butter—Receipts, 4,675 pkgs; market strong. June creamery, 19@23½c; western creamery, 20@26c; factory, 19@20c.

Cheese—Receipts, 6,020 pkgs; market firm; fancy large white, 13@13¼c; fancy large colored, 13@13¼c; fancy small white, 13@13¼c; fancy small colored, 13½c; choice grades, 12@12¾c.

Eggs—Receipts, 8,520 pkgs; market barely steady; western at mark, 15½@15½c; southern at mark, 14½@15¼c.

Sugar—Raw, quiet; centrifugal, 96 test, 4 5-16c; fair refining, 3 13-16c; molasses sugar, 3⅝c; refined, irregular; crushed, $5.50; powdered, $5.20; granulated, $5.10.

Coffee—Market quiet; No. 7 Rio, 8¼@8⅜c; nominal.

THE MONEY MARKET.

New York, Mar. 7.—Money on call firm at 3 per cent; prime mercantile paper, 4½@5½ per cent; sterling exchange heavy with actual business in bankers' bills at $4.86 for demand and at $4.82½ for 60 days; posted rates, $4.83½@4.84 and $4.87@4.87½; commercial bills, $4.81¾@4.82½; silver certificates, 59⅝@60⅝c; bar silver, 59⅝c; Mexican dollars, 47⅞c.

THE BOND MARKET.

New York, March 7.—Government bonds strong:

BANK BURGLARS GET $17,000.

Ottumwa, Iowa, March 6.—The town of Farmington was greatly excited when Cashier Barry Wier opened the vaults of the Farmers' bank and found the interior had been rifled of a large portion of its contents. The officials of the bank were summoned and an examination made, but up to this time the manner in which the robbers received admittance is a mystery. Barry Wier, the cashier, left the bank at 3:30 Saturday afternoon to spend Sunday in Eldon. He left President F. S. Lightfoot and F. D. Barr, one of the directors, in charge and an hour later those gentlemen set the time lock for thirty-six hours, or until 5 o'clock Monday morning, and when the president closed the vault door and locked it there was a large sum of money in the vault. Just how much they refuse to state. They had sent $3,400 away, but there was a large sum in specie and currency remaining. The robbers left several thousand dollars in gold and silver, but it is claimed that nearly $17,000 in currency was secured. Suspicious characters who left Farmington suddenly Sunday are being pursued, but it is not thought they will be captured, as a terrific snowstorm makes it almost impossible to travel. No suspicion rests upon the cashier.

GENERAL WHEELER ARRIVES.

San Francisco, Cal., March 6.—The United States transport Warren arrived here yesterday from Manila via Hong Kong, Guam and Honolulu. On board the Warren are General Wheeler and his daughter, Lieutenant Commander Briggs, U. S. N., Captain Johnson, U. S. V., and several passengers. The Warren made a stop of ten days at Guam to permit General Wheeler to make an investigation of the government established there by Lieutenant Leary. The Warren brings the news from Honolulu that of the three suspected cases of plague reported on February 20 but one proved to be genuine plague, and when the Warren left Honolulu the authorities were of the opinion that the plague had about died out. The Warren was ordered to quarantine, but may be released today.

RIDES FLYWHEEL AND LIVES.

Milwaukee, March 6.—Whisked at lightning speed through two two-foot holes in the floor, and an unknown number of times around a nine-foot flywheel, and finally hurled through the air twenty-five feet against the far end of the engine room, Fred Tiede is still alive. More than that, he escaped without a broken bone, and the doctors say he will be able to go to work tomorrow. Tiede is an engineer at the quarry of the Wauwatosa Stone company, west of the city, and working in the engine room alone. No one witnessed the awful spectacle. George H. Sylvester, foreman at the quarry, entered the engine room and failing to find Tiede at his post began an investigation. At the farther end of the engine room he noticed the apparently lifeless form of the engineer, fully twenty-five feet from the whirling wheel.

The March number of Harper's Magazine is rich in timely and interesting features. Prominent among these is the illustrated article on "Pretoria Before the War," by Howard C. Hillegos, author of "Oom Paul's People," in which the writer gives a comprehensive sketch of the life in the South African capital at the time of his visit shortly before the breaking out of hostilities. Captain Mahan contributes the first of a series of articles on "The Problem of Asia," in which he discusses the future of the European prowers as factors in Asiatic problems, and the third installment of Mrs. Ward's new novel also appears. There are short stories by Stephen Crane, Virginia Frazar Boyle, Charles Egbert Craddock, Ellen Douglas Deland, and Marie Van Vorst, and special articles by Julian Ralph, Archibald R. Colquhoun, Poultney Bigelow and Tappan Adney.

Aching Bones,

pain in the back running up the spinal column to the base of the brain, eyes feverish and bloodshot, a stuffy feeling in the head, scalding discharge from the nose, sneezing, sore throat, cough, pain in chest—these are all signs of grip's ravaging effect on the nerves. Grip weakens the heart, congests the lungs, destroys the appetite and lowers the vitality of the whole system. The best and safest remedy for overcoming the depressing and prostrating effects of grip is Dr. Miles' Nervine. It invigorates the appetite, assists digestion, quiets the nerves and brings restful, refreshing sleep. It builds up the nerve tissues, overcomes the aches and pains, steadies the nervous heart and puts new life and energy into broken-down men and women as nothing else can.

"Four years ago I had a very severe attack of La Grippe, which settled in the back of my head and spinal cord. I had distressing pains in my head and back, my bones ached all the time and I became extremely nervous and restless. I could not sleep for days and nights together, my brain became seriously affected and I thought I should lose my mind. For two years my condition grew steadily worse and then I commenced taking Dr. Miles' Nervine. In a few days I was able to sleep naturally and continued to improve from that time on until my health was completely restored." MISS SUE GOWEN, Opelika, Ala.

BRIDGE GAVE WAY

FORT WAYNE ROAD HAS TERRIBLE WRECK.

TWO KILLED, ANOTHER DYING

THE VICTIMS KNOWN TO ALL DIVISION C TRAINMEN.

WORKMEN'S WAGES ADVANCED

NATIONAL TUBE WORKS' EMPLOYES FAVORED ONES.

The Sentinel is in receipt of a telegram from Pittsburg, telling of a terrible accident which happened on the Pittsburg, Fort Wayne and Chicago road at Allegheny at an early hour this morning. The locomotive hauling a Chicago fast freight, westbound, crashed through the steel bridge spanning Robinson street, in that city, and dragged the tender and one car with it.

Fireman A. K. Miller, of Bolivar, Pa., and Brakeman George DeWald, of Pitcairn, Pa., were killed outright.

Conductor James F. Martin, of Pitcairn, Pa., was dangerously injured.

The dead and injured men are old employes on the road and are known to very many of the trainmen on the western division of the road, whose duties take them into Crestline, which is also a terminal of the eastern train crews.

None of the other trainmen on the unfortunate train were injured. The bridge that collapsed is one of the oldest on the Fort Wayne road and was supposed to have been sufficiently strong for the heaviest locomotive of the modern type.

RAISED THEIR WAGES.

Four thousand employes of the National Tube company, at McKeesport, Pa., were today notified of a 10 per cent. advance in wages. The increase includes all day laborers in the tube mills. The tonnage men will get their advance next week, when the rate is fixed by the Amalgamated association. This is the second increase of 10 per cent. that the day men of the National Tube company have received within six months and makes the wages of common labor higher than at any time in the history of the works. The advance will date from April 1st. The increase includes all pipe cutters, machinists, laborers and all employed in the tube mills who work by the day.

Later the announcement was made that the increase in wages would affect not only the employes of the National Tube works at McKeesport, but that all the tube workers employed by the combine in the United States would receive a similar advance. The number of men affected is over 20,000.

LEAVES THE FINDLAY.

This morning's Cincinnati Commercial-Tribune contained the following special dispatch from Findlay, concerning a gentleman known here: "Charles J. Guenther, formerly in the Big Four office at Cleveland, more recently with the Findlay, Fort Wayne and Western as assistant to the general freight and passenger agent, has tendered his resignation to accept the position of percentage and claim agent for the Hocking Valley at Columbus. The change is effective March 15."

RESUMES HIS OLD PLACE.

Harvey Brokaw will in a few days resume a regular passenger run on the Grand Rapids and Indiana road, being assigned to a train running between this city and Richmond. Mr. Brokaw bears the distinction of being the oldest conductor on the road and had charge of the first train that entered Fort Wayne over that line. For several years he has been on the extra list, having been placed there at his own request.

A SHOPMAN HURT.

The city ambulance was called to the Bass foundry yesterday afternoon to remove Rudy Brockerman to his home, No. 53 Madison street. Mr. Brockerman was injured by a casting falling upon him, bruising one of his legs badly. He will be disabled for some time.

THE AGENTS' BANQUET.

Agent R. G. Hamilton, of the Nickel Plate, chairman of the committee on invitations for the passenger and freight agents' banquet next Friday, has so far received seventy-six notices of acceptance, included being some of the most prominent passenger men in the country. As previously announced, this meeting is a social affair and even the merest reference to business matters will be considered an offense that will result disastrously to the offender. The local agents expect an attendance of about 150. Mayor Scherer will welcome the visitors in an address and will give them the freedom of the city.

RESUMED BRICK LAYING.

Contractor B. Borkenstein set the masons at work in building the second story part of the Pittsburg freight house this morning. If the weather remains good for outdoor work the walls will be completed by Saturday.

WRECK AT HEGEWISH.

The first section of Nickel Plate freight train No. 44, eastbound, was partially thrown from the tracks one-half mile west of Hegewish at 4 o'clock this morning, the trouble being due to a broken rail. Fourteen cars, loaded with oats, went into the ditch and they and their contents were considerably damaged. None of the train crew were injured. The wreck crew from Stony Island was called to the scene and is now at work clearing the tracks and picking up the wrecked cars.

INDUSTRIAL NOTES.

H. W. Franke has taken a position in the Wabash shops.

J. W. Miller, of the Wabash round house, is sick and off duty.

Jacob Backes, boilermaker in the Pittsburg shops, is detained at home by the illness of his wife.

F. M. Richhart resumed work in the Pittsburg blacksmith shop this morning after several days' illness.

John Holsworth, of the blacksmith department of the electric works, is off duty on account of sickness.

J. H. Sweer resumed his place in the tin department of the east shops this morning. He had been sick.

After a three weeks' illness, William Lepper this morning resumed his place in the Pittsburg planing mills.

Engineer J. Parrish and Fireman J. O'Harra, who had been on the sick list, resumed their places on the road today.

Brakeman M. Dentrick, of the Nickel Plate, is taking a few days' rest, after a long and steady term on the road.

Vice President T. J. Brooks, of the Pennsylvania, passed through the city this morning on train 15, en route to Chicago.

Marvin Miller, messenger and student at the Wabash telegraph office, has gone to Rome City to visit his mother a few days.

P. E. Murphy and O. N. Trentman have taken positions in the metre testing department of the laboratory at the electric works.

Guy Springer, of the Bass boiler shop, has gone to the country to attend the funeral of his stepfather, who died yesterday, as noted in The Sentinel.

Ottie Stoll, who lives out near the organ factory, fell and was unable to get to his work in the Bass 'smith shop this morning. He was not seriously injured.

Mr. and Mrs. John Cook have gone to Hobart, Ind., to attend the funeral of Mr. Cook's sister, who died there last Monday. Mr. Cook is a Nickel Plate engineer.

K. Meier, a car builder at the east shops, sprained his back badly last Monday while in the act of lifting a post to its position. He will be unable to work for a few days.

A. L. Hadley will leave this evening for Sioux City, Iowa, to look after some business for the Fort Wayne electric works, which will occupy his attention three or four days.

Trainmaster J. F. Patterson, of the Pennsylvania, and Harry Quicksell, of the Star Union freight line, went to Chicago this morning to look after business in their respective departments.

Nickel Plate Fireman J. Hollenkamp has returned from Cincinnati, where he spent two weeks with relatives. That city was his home before he came here to accept service on the Nickel Plate.

Conductors J. F. Long and C. A. Bowman and Brakemen J. J. Stephens and F. McGill have returned from Cleveland, where they were called on business connected with the railway company several days ago.

Engineer R. H. Craig is sick; Engineer Theodore Titus had one of his feet painfully injured by a fall and Engineer W. F. Jungles is off duty looking after private affairs. They are employed on the Pittsburg road.

J. T. Harahan, vice president of the Illinois Central, who has been on an extended trip throughout the west, where he established a number of agencies for his road, returned from California via the Southern route.

The January statement of the Chicago, Burlington and Quincy is a very favorable one, showing an increase in gross earnings of $316,790, and an increase in net earnings, after expenses and charges have been paid, of $247,505.

Patrick Cunningham and Frank Frenchnicht, boilermakers, went to Ashley to work a few days. Charles Damon and Frank Hobbs, who had been working in that place, returned here yesterday and this morning resumed their regular places in the Wabash shops.

It is stated that at the coming foreclosure sale of the Pittsburg and Western there will be three bidders, the Erie, the Buffalo, Rochester and Pittsburg and the Baltimore and Ohio, with the probabilities that the last named company will secure the property.

The Ladies' auxiliary of the Brotherhood of Railway Trainmen will meet Thursday afternoon at 2 o'clock, at their hall, 140 Calhoun street. Three candidates will be instructed in the mysteries of the auxiliary and a full attendance of members is desired.

George B. Reeve, general traffic manager of the Grand Trunk, on Saturday handed in his resignation, to take effect April 30. Mr. Reeve's resignation is due to the fact that he believes that after forty years' continuous service with the road he is entitled to a rest.

C. Rodenbeck, Nick Gasert, J. H. Cody, W. Krudop, H. F. Krone, E. Miller, W. Doell, Henry W. Sloat, and T. C. Patton, sick; and O. W. Lehman, J. Gebert, L. Gronau, J. Richards and E. J. Mannix, off on private business, is the story told by the timekeepers' reports in the Pittsburg shops this morning.

Reports to the general freight agent of the Illinois Central from stations along its lines show that the holdings of corn have been greatly reduced in the last sixty days and the rush of the winter is thought to be over. Corn remaining in the cribs is said to be in excellent condition.

Frank Conover began an apprenticeship in the mechanical department of the Wabash Monday morning and the friends of the young man can expect to hear of him occupying the highest office in that branch of the railway service some day. Frank is a son of Norton Conover, the foreman of The Sentinel job office.

Hereafter the Pennsylvania Railroad company will conduct the restaurants and dining rooms at the terminals in Washington, Baltimore and Jersey City, under the style of the Keystone Hotel company, which is incorporated under New Jersey laws. The new arrangement went into effect on Thursday, and Major J. F. Trout has been placed in charge as general manager. He was formerly superintendent of the railway company's dining-car service.

SEEK TO SUPPRESS "ZAZA."

Cleveland, March. 7.—The wave of stage reform has reached Cleveland and, following in the wake of New York city, the authorities of this city had planned to have an attraction that would rival that of the metropolis. This movement was directed against "Zaza," Mrs. Leslie Carter's much talked of play. The police were to have taken evidence on the play last night, but were foiled. A strange coincidence is that when the dramatic experts of the police force reached the opera house they found it dark and were informed that Mrs Carter was suffering with a throat affection that would probably prevent her appearing for the rest of her engagement. Mrs. Carter's opening performance was witnessed by a crowded and fashionable audience. The daily newspapers of the city without exception denounced the play as highly immoral, degrading and unfit for the stage. It seems that a number of prominent people complained of "Zaza" to Chief of Police Corner and Director of Police Barrett. They decided to take action and detailed Captain Mudigan and a patrolman to witness the play and procure evidence. In this they were frustrated by Mrs. Carter's indisposition, which Manager Hartz, of the opera house, and the manager of Mrs. Carter declare genuine.

EXPRESS OFFICE TO MOVE.

Before May 1 the Fort Wayne offices of the United States Express company will be moved from their present location at 79 Calhoun street to 28 East Main street, a room in the Bank block just east of the offices of the America nand National company. A five-year lease for the room was closed this morningby C. H. Beaver, the local agent of the United States company, and the move will place the offices back into the room occupied by them for a period of eighteen years previous to ten years ago, when the Calhoun street location was secured. The chief object in the change is to secure more room demanded by the growing business of the company. The new quarters are to be handsomely fitted up, and workmen are already engaged in this work.

The deepest ocean temperatures ever recorded were taken aboard the Pacific submarine telegraph survey ship Nero recently. At a depth of 5,070 fathoms a temperature of 35.9 degrees was recorded, and at 5,101 fathoms, 36 degrees. The deepest previous casts were made by the British survey ship Penguin.

Pale Women And Children.

Poor, thin, or watery blood is shown by pale, emaciated faces, and signifies that not only is this vital fluid impoverished, but that the organs of the body are weakened.

Pale people suffer from indigestion, dyspepsia, sleeplessness, and are an easy prey to consumption and other diseases. VINOL will relieve this condition, not only by making pure rich blood, but by counteracting other evils that attend such a state of depletion.

"My little two year old child was pale. I gave her VINOL, with the most beneficial results." — MRS. ALDEN H. BRYANT, 721 Kempton St., New Bedford, Mass.

"Delicate women thrive on VINOL. The stories I could tell after a course of VINOL would sound like good tidings." — ROSE HAWTHORNE LATHROP, 668 Water St., New York.

"VINOL has done wonders for my boy four years old. He was all run down, without appetite, and had a bad cold. I [illegible] bottle of VINOL and he is very much improved, and I believe one more bottle will restore him to health." — MRS. A. C. WEBBER, 86 Florence Street, New Bedford, Mass.

"In my opinion VINOL is a most excellent article for growing children. My children needed such a tonic, and besides were troubled with grippe. I gave them VINOL. It cured their cough, and has strengthened them greatly." — THO. H. ENWRIGHT, Fall River, Mass.

Please remember that VINOL is sold on our guarantee. We have learned from the above, and many similar testimonials, that VINOL is a tonic and a rejuvenator for pale women and children that has no equal. We positively guarantee the action of VINOL wherever a reconstructor is needed, and will refund the price of the remedy to any one not satisfied. If you will call on us we will prove to you that VINOL is delicious to the taste, and give you such further particulars as you may wish.

ASKS DR. HUDSON'S TRANSFER

WANT GOSHEN MINISTER FOR PRESIDING ELDER.

Request of the Berry Street Quarterly Conference—Made No Selection for Pastor.

At the quarterly conference of the Berry Street M. E. church, George Brackenridge introduced a resolution asking that Rev. Dr. C. G. Hudson, who has been presiding elder of the Goshen district, be transferred to the Fort Wayne district as presiding elder to succeed Rev. F. T. Simpson, who has served the limit of five years in that capacity. The resolution was passed and will be filed with the North Indiana conference to meet at Elkhart.

The business affairs of the church for the entire year were gone over at the quarterly conference, and the outlook is regarded as most encouraging. Regarding the selection of a pastor for the coming year the conference did not go upon record. Rev. Cissel must leave by reason of the expiration of his limit of five years at one church, and while the conference discussed the matter of a successor it did not formulate a request to the conference on this subject.

Dr. C. B. Stemen was selected as delegate to the North Indiana conference at Elkhart in April, with Chester Scarlett as alternate.

THEY ARE PRACTICAL.

Unusual interest has been awakened in the series of meetings now in progress at the West Jefferson Street Church of Christ, for Evangelist Allen's efforts are plain and practical. His teaching is not from the standpoint of the theologian, but is filled with active, living life principles, and the utterances of Christ nearly two thousand years ago are being applied to the lives of men today with results that are helpful and encouraging. The evangelist objects to what seems to be a too universal tendency among nominal Christians to condemn entirely people whose lives seem to them not to conform in many ways to an ideal character. He illustrates this by using the glass plate upon which an impression has been made by the photographer. The outlines of the picture are not seen until the plate has been placed in contact with the developer. So with man; in his making he had had God's image impressed upon his conscience, but it is the living principles of Christ that act as the developer. The gambler, the thug and the most degraded of humanity have the original image, and are most in need of the developer. The people in need are the ones most desired to be reached. This seems to be a just principle—accepting all good wherever it may be found, and using the same to overcome the evil in the lives of men. Rev. Allen's subject this evening is "Marketable Religion."

LAKE TOWNSHIP ITEMS.

The first real snow of the season was a good one and people of our locality took hold of their opportunity by going out sleigh riding.

Warren Sites, the young man who was so severely frozen at Arcola some time ago, is getting along nicely.

The schools presided over by Miss Lottie Shaffer and Mr. and Mrs. Morrison, which were closed for a week on account of scarlet fever and diphtheria, have again resumed their work.

Gertrude Felger, daughter of Mr. and Mrs. Jacob Felger, who was afflicted with scarlet fever, we are glad to report, is much improved.

Politics, which so far has lain dormant, seemingly has taken on new life and our people are making the acquaintance of many friends. They are all good friends, too, apparently.

The children of Rev. J. P. Meyer and his wife, who have had a long siege with whooping cough, are again well.

Forest Hagan, young son of Mr. and Mrs. William Hagan, is afflicted with erysipelas.

To all appearances Frank Prill is going into the lumber business. Recently at the sale of Mr. Henlein's he bought two saws—one a six and the other a seven-foot.

Mrs. Henry Gehring is on the sick list.

Levi Binkley is going into the stock business in earnest, having lately bought several registered shorthorns.

The teachers of Aboite and Lake townships held their last institute at the Elektron building at Fort Wayne last Saturday.

Those of our youth who have been congratulating themselves thus far that they would escape having sore

DUTCH RIDGE ITEMS.

Everybody is able to get about at present, although some were pretty nearly snowed under last Thursday morning.

The Collingwood Literary society held a rousing meeting last Thursday evening. The society elected Burlen Warner president and Miss Celia Hartzell secretary. The Fitch Literary society will meet the Collingwood Literary society in a joint debate at the Dutch Ridge school house on the evening of March 20. Everybody invited to come.

Nathan Warner has taken the contract to carry the mail.

Politics is rather quiet. The candidates will all know their destiny on March 24.

Amos Fredrick, candidate for supervisor, is hauling logs to Auburn.

A sled load of young people attended the Fitch literary Friday evening and reported a good time.

ALTER & IVANS

LEASE THE ROOM OCCUPIED BY THE GLOBE—WILL OPEN A FINE CIGAR STORE.

Messrs. A. C. Alter and Lee Ivans have leased the large store room now occupied by the Globe clothing house corner of Calhoun and Main streets, and will, after the room has been completely remodeled, occupy it with a cigar and news stand. When completed, it will be by far the handsomest store of the kind in the state, carrying a large stock of all the finest brands of cigars and tobaccos. A complete line of all the popular magazines, periodicals and newspapers will always be found there.

The room will be ready for occupancy between the 1st and 15th of April. The front thirty feet will be occupied by the cigar store and the rear part will be sub-rented, several parties having already made application for it. Saturday Mr. Alter will go to Chicago to purchase the furniture for the store.

Mr. Ivans will retain his interest in the Aveline house and Mr. Alter will continue the management of the cigar and news stand at that popular hotel.

$1,000 REWARD

Will Be Paid to Any Person Proving That We Cannot Do All They Claim.

Meyer Bros. wish to say to all sufferers from Catarrh, Deafness, Asthma and lung troubles that they highly recommend and guarantee Dr. Dorment's combination vaporizer, on exhibition at their store all of this week, during which demonstrations will be made and free trial given by the doctor and his assistants. In addition the doctor gives free enough medicine to last 30 days' home treatment.

We can very truthfully say that the principles contended for by him, the direct application of remedies to the seat of the diseases in the lungs, etc., is not only rational but scientific. By the aid of this wonderful instrument all the air passages are thoroughly but gently dilated or spread open and while in that condition any drug known to the medical world, whether an oil, an ointment or a watery tincture, can be applied in actual substances to all diseased parts of the head, throat or the innermost cavities of the lungs just as easily as you can apply an ointment to a sore finger. Hundreds received this treatment during the doctor's two weeks' stay last November and we are pleased to say that nothing but the most unqualified praise has been heard from them all. The above diseases are positively cured by this method, and by this method only, as your reasoning will show, for by no other method can a desired drug be made to reach all the parts diseased. With this instrument patients may treat and cure themselves scientifically in their own homes and at slight cost.

$1,000 will be paid to any person producing any other method of treatment that has or can cure the above named diseases. Do not be skeptical and say it is impossible until you have investigated.

THE MAGIC OAK

Is one of the best selling stoves in our stock, and we have reason to be proud of it. It's a good quality stove. Bad stoves let all the smoke come into the room and all the heat go out through the chimney. Our stoves behave themselves. The heat comes out into the room. The smoke goes up the chimney. The price will make you smile with satisfaction every time you look at the one you bought from us.
